MIKE SATTARZADEH
President

Vertical Cable and its parent company, Chiptech, Inc., have been serving the Information Technology and Communications industry since 1989.

In 2006, Vertical Cable refocused its business vision and transformed operations becoming a cable manufacturer and distributor.

Since 2006, Vertical Cable has expanded its presence nationwide with three distribution facilities in Florida, New York, California, and a cable manufacturing facility in Texas.

In 2020, Vertical Cable entered the optical fiber market with its first outside-plant singlemode cable stocked at its new facility in North Carolina.

In 2021, Vertical Cable continues expanding its operations by targeting optical fiber project solutions with its connectivity portfolio that now includes connectors, enclosures, panels, cassettes, splicing, termination, installation, and testing products.

FLORIDA

Headquarters

2885 SW 30th Avenue, Pembroke Park, FL 33009

Business Hours:

Monday - Friday 8:00 AM - 5:00 PM (EST)

Product Information and Sales:

Sales Inquiries: fl-sales@verticalcable.com
800.749.2447 phone
954.454.2167 fax

Se Habla Español

NEW YORK

Address:

1073 Route 94, Unit 1, New Windsor, NY 12553

Business Hours:

Monday - Friday 8:00 AM - 5:00 PM (EST)

Product Information and Sales:

Sales Inquiries:
ny-sales@verticalcable.com
845.391.8318 phone
845.391.8478 fax

Vertical Cable has multiple stocking locations across the USA.
The West Coast location in Murrieta, CA, services customers as far as Central USA and Alaska.

The North East location in New Windsor, NY, services customers from Canada and the East coast, to Central USA.

The Southern Fort Lauderdale location services as far as South America and the Caribbean.
Corporate Headquarters are located in Fort Lauderdale, FL.

Manufacturing Plant is located in Bonham, TX.

Bulk Optical Fiber cables are are stocked and shipped out of our North Carolina facility.

CALIFORNIA

Address:

41715 Cherry Street, Murrieta, CA 92562

Business Hours:

Monday - Friday: 8:00 AM - 5:00 PM (PST)

Product Information and Sales:

Sales Inquiries: sales@verticalcable.com
951.696.7772 phone

TWISTED-PAIR SYSTEMS

Photo by Pearce Smithwick, All Green Lights LLC

CAT6a		
	UTP (Unshielded)	F/UTP (Shielded)
CMP (Plenum)	176 Series (ETL) - USA 065 Series (UL) - TAA	165-XXX/A/PS/XX (UL) - TAA
CMR (Riser)	064-XXX/A/XX (ETL)	064-XXX/A/S/XX (ETL)
Outdoor (UV)		
CMX	069-564/A/CMX (ETL)	-
Direct Burial		
Dual jacket	-	069-565/A/CMXT (ETL)

Part Number Anatomy:

XXX-XXX/X/PS/XX - Plenum-Rated, Shielded
 XXX-XXX/X/S/XX - Shielded
 XXX-XXX/X/CMXT - CMX (double jacket)
 XXX-XXX/P/XX - Plenum-Rated
 XXX-XXXX/A/XX - CAT6a
 XXX-XXX/X/BK - Color (in this case Black)
 Other colors: BL (blue), GR (green), GY (gray), OR (orange), PK (pink), PR (purple), RD (red), WH (white), YL (yellow)

CAT6a Plenum UTP

176 SERIES - CAT6a PoE++ CMP UTP - Made in the USA

MADE IN USA

Features:

- Meets or exceeds ANSI/TIA-568.2-D specifications
- 4-pair unshielded (UTP) construction
- 23-AWG insulated bare solid copper conductors
- Plenum-rated (CMP) insulation and overall jacket materials
- Central spline and internally-ribbed jacket ensure excellent X-talk performance
- Meets PoE Type 4 specifications including all preceding Types
- Supports IEEE 802.3 technologies up to 10 Gb/s (802.3an 10GBASE-T)
- Meets HDBaseT specifications up to Spec 3.0

Available in 1000 ft and 500 ft

Item #	Description
176-300/A/P/BK	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Black
176-305/A/P/BL	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Blue
176-310/A/P/GR	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Green
176-315/A/P/GY	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, White
176-320/A/P/OR	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Yellow
176-325/A/P/PK	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Gray
176-330/A/P/PR	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Red
176-335/A/P/RD	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Red
176-340/A/P/WH	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, White
176-345/A/P/YL	CAT6a, PoE++, 23 AWG, 4 Pair, UTP, CMP, 1000 ft, Yellow

CAT6a Cable

▶ CAT6 Plenum

CAT6a Plenum F/UTP

CAT6a, 10Gb, 23 AWG, 4 Pair, F/UTP, CMP

Features:

- 23 AWG Bare Copper Conductors
- Overall Foil-Shielded Twisted-Pair (F/UTP) Construction
- Plenum Fire Safety Rating (CMP)
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Supports High-Speed Data Applications including Ethernet 10 Gigabit, 100 BASE TX, 100BaseVG AnyLan, 155ATM, 622ATM, NTSC/PAL, Component or Composite Video, AES/EBU Digital Audio, AES51, RS-422
- UL-Listed, RoHS-Compliant
- Designed in the USA, Imported Product (TAA-Compliant)
- Packaging: 1000 ft Wooden Spool

With CAT6a Cable Our Customers Usually Buy These Products:

Velcro Tie Wrap

RJ45 Plugs

Tools

Horizontal Cable Managers

Feed-through Wall Plate

Adjustable Wall-Mount Bracket

CAT6a Cable ▶ CAT6a

CAT6a Riser UTP

Features:

- 23 AWG Bare Copper Conductors
- Unshielded Twisted-Pair (UTP) Construction
- Riser Fire Safety Rating (CMR)
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Supports High-Speed Data Applications including Ethernet 10 Gigabit, 100 BASE TX, 100BaseVG AnyLan, 155ATM, 622ATM, NTSC/PAL, Component or Composite Video, AES/EBU Digital Audio, AES51, RS-422
- ETL-listed, RoHS-Compliant
- Designed in the USA, Imported Product
- Packaging: 1000 ft Wooden Spool

Item #	Description
064-484/A/BK	CAT6a, 1000 ft, Spool, Black
064-485/A/BL	CAT6a, 1000 ft, Spool, Blue
064-688/A/GY	CAT6a, 1000 ft, Spool, Gray
064-687/A/GR	CAT6a, 1000 ft, Spool, Green

CAT6a Solid Riser F/UTP

CAT6a, 10Gb, 23 AWG, 4 Pair, F/UTP, CMR

Features:

- 23 AWG Bare Copper Conductors
- Overall Shielded Twisted-Pair (F/UTP) Construction
- Riser Fire Safety Rating (CMR)
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Supports High-Speed Data Applications including Ethernet 10 Gigabit, 100 BASE TX, 100BaseVG AnyLan, 155ATM, 622ATM, NTSC/PAL, Component or Composite Video, AES/EBU Digital Audio, AES51, RS-422
- ETL-listed, RoHS-Compliant
- Designed in the USA, Imported Product
- Packaging: 1000 ft Wooden Spool

Item #	Description
064-700/A/S/BK	CAT6a, 1000 ft, Spool, Black
064-701/A/S/BL	CAT6a, 1000 ft, Spool, Blue
064-702/A/S/GR	CAT6a, 1000 ft, Spool, Green

▶ CAT6a Outdoor

CAT6a Outdoor-Rated - CMX

- Features:
- 23 AWG Bare Copper Conductors
 - Unshielded Twisted-Pair (UTP) Construction
 - Outdoor- and UV-Resistant Jacket Material
 - For outdoor use above ground
 - Easy-to-See Vivid-Color Conductor Insulation & Jacket
 - Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
 - Supports High-Speed Data Applications including Ethernet 10 Gigabit
 - ETL-listed, RoHS Compliant
 - Packaging: 1000 ft Wooden Spool

Item #	Description
069-564/A/CMX	CAT6a, Outdoor, CMX, 23 AWG, 4 Pair, UTP, 1000 ft, Spool, Black

CAT6a Outdoor-Rated, Direct Burial - CMX (DUAL JACKET)

- Features:
- 23 AWG Bare Copper Conductors
 - Unshielded Twisted-Pair (UTP) Construction
 - Outdoor- and UV-Resistant Jacket Material
 - For outdoor use above ground and/or direct burial
 - Easy-to-See Vivid-Color Conductor Insulation & Jacket
 - Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
 - Supports High-Speed Data Applications including Ethernet 10 Gigabit
 - ETL-listed, RoHS Compliant
 - Packaging: 1000 ft Wooden Spool
 - Compatible with 012-021-100 RJ45 connectors

Item #	Description

Introducing CAT6 UTP CMP Slim Type - Made in USA

Benefits of Slim CAT6

- Easier to manage in high density panels
- Increased capacity for conduit fill
- Light-weight
- Easier to pull
- More flexible
- Slim design supports 100W (POE++)

Design Modifications

- Copper diameter reduction
- Conductor diameter reduction
- Spline-less design
- Filler-less design
- Smaller overall cable diameter
- Less irregular, smooth jacket surface

Regular

Features:

- 4-Pair Unshielded Twisted-Pair (UTP) Construction
- Plenum Fire Safety Rating (CMP)
- 23 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation and Cable Jacket
- Moisture-Resistant Box equipped with easy-to-pull tube
- Supports High-Speed Data Applications, Fast Ethernet and 155-Mbit/s TP-PMD/CDDI
- Supports High-Speed Data Applications up to 1 Gbit/s
- Excellent Insertion Loss and Crosstalk Characteristics
- ETL-listed, ETL-Verified Channel, RoHS-Compliant (166 Series)
- UL-Listed, RoHS-Compliant (167 Series)
- Covered by 25-Year Warranty
- Made in the USA
- Available Packaging: 500 ft & 1000 ft Pull Box

MADE IN USA

Slim design allows to reduce the pull box size.

Slim design - lower weight
(4.5 lb reduction per 1000 ft box).

CAT6 Cable ► CAT6

CAT6 UTP Plenum-Rated - TAA-Compliant

066 SERIES - CAT6 550 MHz Cable, 23 AWG, UTP

Features:

- Unshielded Twisted Pair (UTP) Cable
- Plenum Fire Safety Rating (CMP)
- 23 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation and Cable Jacket
- UL-Listed, RoHS-Compliant
- Designed in the USA, Imported Product - TAA Compliant
- Packaging: 1000 ft Pull Box

CAT6 Cable ▶ CAT6 CAT6 CMR UTP - TAA-Compliant

161 SERIES - CAT6 CMR UTP 550 MHz, 23 AWG - RISER-RATED

Features:

- Unshielded Twisted-Pair (UTP) Construction
- Riser Fire Safety Rating (CMR)
- 23 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation and Cable Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Easily Identified Color-Striped Pairs
- ETL-listed, RoHS-Compliant
- Designed in the USA, Imported Product - TAA-Compliant (Made in South Korea)
- Packaging: 1000 ft Pull Box

060 SERIES - CAT6 CMR UTP 550 MHz, 23 AWG, UTP - Designed in the USA, Imported Product (China)

Item # Description

060-487/BK	1000 ft, Pullout Box, Black
060-488/BL	1000 ft, Pullout Box, Blue
060-489/GR	1000 ft, Pullout Box, Green

Features:

- Overall Foil-Shielded Twisted-Pair (F/UTP) Construction
- Riser Fire Safety Rating (CMR)
- 23 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS-Compliant
- Designed in the USA, Imported Product
- Packaging: 1000 ft Wooden Spool

Item #	Description
062-503/S/BK	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Black
062-504/S/BL	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Blue
062-505/S/GR	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Gray
062-506/S/GY	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Green
062-507/S/OR	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Orange
062-502/S/PR	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Purple
062-508/S/RD	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Red
062-509/S/WH	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, White
062-510/S/YL	CAT6 550 MHz Cable, 23 AWG, F/UTP, 4 Pairs, 1000 ft, Yellow

CAT6 Low Smoke Zero Halogen (LSZH)

Features:

- Unshielded Twisted Pair (UTP) Cable
- 23 AWG Bare Copper Conductors
- Jacket Material: Low Smoke Zero Halogen
- Easily Identified Color-Striped Pairs
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- 1000 ft Pull Box

Item #	Description
070-711/6LS/BL	CAT6 23 AWG, UTP, LSZH Jacket, 1000 ft, Pull Box, Blue
070-713/6LS/GY	CAT6 23 AWG, UTP, LSZH Jacket, 1000 ft, Pull Box, Gray
070-718/6LS/WH	CAT6 23 AWG, UTP, LSZH Jacket, 1000 ft, Pull Box, White

TWISTED-PAIR SYSTEMS

CAT6 Cable ▶ CAT6 Outdoor CAT6 Outdoor-Rated, CMX

Item #	Description
069-559/CMX	CAT6 Outdoor Jacket, UV-Rated Jacket, CMX-Rated, 1000 ft, Wooden Spool, Black

- Features:**
- Unshielded Twisted-Pair (UTP) Construction
 - 550 MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
 - Easily Identified Color-Striped Pairs
 - 23 AWG Solid Copper Conductors
 - Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
 - Outdoor- and UV-Resistant Jacket Material
 - ETL-listed, RoHS Compliant
 - 1000 ft Wooden Spool

CAT6 Outdoor-Rated With Messenger Aerial Applications - Unshielded & Shielded

Item #	Description
069-562/MESG	CAT6 UTP, Outdoor-Rated with Messenger, Aerial Applications, Unshielded , LLDPE Jacket, 23 AWG, Solid Bare Copper, 1000 ft, Spool, Black
069-563/S/MESG	CAT6 F/UTP, Outdoor-Rated with Messenger, Aerial Applications, Shielded , LLDPE Jacket, 23 AWG, Solid Bare Copper, 1000 ft, Spool, Black

Aerial Applications

- Features:**
- 550 MHz Bandwidth for Data Applications, Fast Ethernet and 155Mbps TP-PMD/CDDI
 - Galvanized Steel Messenger
 - Easily Identified Color-Striped Pairs
 - 23 AWG Solid Copper Conductors
 - Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
 - Outdoor- and UV-Resistant Jacket Material
 - ETL-listed, RoHS Compliant
 - 1000 ft Wooden Spool

CAT6 Cable ► CAT6 Outdoor

CAT6 Direct Burial, CMX (DOUBLE JACKET) - Unshielded & Shielded

069-557/US/CMXT

069-556/CMXT

Item #	Description
069-557/US/CMXT	CAT6 CMX Direct Burial, UTP Unshielded , Double Jacket, LLDPE Jacket, 23 AWG, Solid, 1000 ft, Wooden Spool, Black - 600 MHz
069-561/CMXT	CAT6 CMX, Direct Burial, LLDPE Jacket, F/UTP Shielded , 23 AWG, Double Jacket, 1000 ft Wooden Spool, Black - 550 MHz
069-556/CMXT2K	CAT6 CMX, Direct Burial, LLDPE Jacket, F/UTP Shielded , 23 AWG, Double Jacket, 2000 FT Wooden Spool, Black - 550 MHz
069-561/CMXT	CAT6 CMX Direct Burial, F/UTP Shielded , Waterproof (Dual Jacket) LLDPE Jacket, 23 AWG, Solid, 1000 ft Wooden Spool, Black - 550 MHz

Features:

- Fast Ethernet and 155Mbps TP-PMD/CDDI
- Easily Identified Color-Striped Pairs
- 23 AWG Solid Copper Conductors
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Outdoor- and UV-Resistant Jacket Material
- ETL-listed, RoHS Compliant
- Wooden Spool

CAT6 Direct Burial, CMX (GEL-FLOODED CORE) - Unshielded & Shielded

069-560/CMXF

069-558/S/CMXF

Item #	Description
069-560/CMXF	CAT6 CMXF Direct Burial, 550 MHz Bandwidth for Data Applications, Gel-Flooded Core, Unshielded , 23 AWG, Solid, Black
069-558/S/CMXF	CAT6 CMXF Direct Burial, 550 MHz Bandwidth, Gel-Flooded Core, Shielded , Drain Wire, 23 AWG, Black

Features:

- Gel-Flooded Core
- Outdoor- and UV-Resistant Jacket Material
- Easily Identified Color-Striped Pairs
- 23 AWG Solid Copper Conductors
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS Compliant
- 1000 ft Wooden Spool

CABLE THAT "PULLS LIKE BUTTER"

Features:

- 4-Pair Unshielded Twisted-Pair (UTP) Construction
- Plenum Fire Safety Rating (CMP)
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation and Cable Jacket
- Moisture-Resistant Box equipped with easy-to-pull tube
- Supports High-Speed Data Applications, Fast Ethernet and 155-Mbit/s TP-PMD/CDDI
- Supports High-Speed Data Applications up to 1 Gbit/s
- Excellent Insertion Loss and Crosstalk Characteristics
- ETL-listed, ETL-Verified Channel, RoHS-Compliant (156 Series)
- UL-Listed, RoHS-Compliant (157 Series)
- Covered by 25-Year Warranty
- Made in the USA
- Packaging: 500 ft & 1000 ft Pull Box

CAT5E Cable ▶ CAT5E CAT5E Plenum F/UTP

Item #	Description
057-479/S/P/BL	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, Blue
057-480/S/P/GY	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, Gray
057-481/S/P/WH	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, White
057-482/S/P/BK	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, Black
057-483/S/P/GR	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, Green
057-484/S/P/YL	CAT5E 350 MHz Cable, Plenum/Shielded, 24 AWG, F/UTP, 1000 ft, Pull Box, TAA-Compliant, UL & ETL-listed, Yellow

Features:

- Overall Foil-Shielded Twisted-Pair (F/UTP) Construction
- Plenum Fire Safety Rating (CMP)
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- UL-Listed, RoHS-Compliant
- Designed in the USA, Imported Product (TAA-Compliant)
- Packaging: 1000-ft Pull Box

▶ CAT5E Multipair

CAT5E 25, 50 Pair Power Sum (UTP)

Item #	Description
054-454BL	CAT5E 25 Pair Power Sum, PVC Jacket, 24 AWG, Blue
054-453GY	CAT5E 25 Pair Power Sum, PVC Jacket, 24 AWG, Gray
054-452WH	CAT5E 25 Pair Power Sum, PVC Jacket, 24 AWG, White
054-455/BL	CAT5E 50 Pair Power Sum, PVC Jacket, 24 AWG, Blue
054-456/WH	CAT5E 50 Pair Power Sum, PVC Jacket, 24 AWG, White

Features:

- Unshielded Twisted Pair (UTP) Construction
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS-Compliant
- Packaging: 1000 ft Wooden Spool

CAT5E 25 Pair (F/UTP)

Item #	Description
057-486/S/BL	CAT5E 350 MHz Cable, 25 Pairs, Solid/Shielded, 24 AWG, F/UTP, 1000 ft Spool, Blue
057-487/S/WH	CAT5E 350 MHz Cable, 25 Pairs, Solid/Shielded, 24 AWG, F/UTP, 1000 ft Spool, White

Features:

- Overall Foil-Shielded Twisted-Pair (F/UTP) Construction
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS-Compliant
- Packaging: 1000 ft Wooden Spool

CAT5E Cable ▶ CAT5E Outdoor

CAT5E 25 Pair Direct Burial

Features:

- 25-Pair Unshielded Twisted Pair (UTP) Construction
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- Gel-Flooded Core
- Direct Burial Construction
- ETL-listed, RoHS-Compliant
- Packaging: 1000 ft Wooden Spool

Item #	Description
059-488/CMXF25P	CAT-5E CMXF Direct Burial, Gel-Flooded Core, 50-Conductor, 24 AWG Solid Bare Copper, Black

CAT5E Outdoor Cable, CMX - UTP & F/UTP

Features:

- Outdoor- and UV-Resistant Jacket Material
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS Compliant
- 1000 ft Pull Box or 2000 FT Wooden Spool

Item #	Description
059-484/CMX	CAT5E UV Jacket, UTP CMX Cable, 1000 ft Pull Box, Black
059-484/CMX/GY	CAT5E UV Jacket, UTP CMX Cable, 1000 ft Pull Box, Gray
059-484/CMX/WH	CAT5E UV Jacket, UTP CMX Cable, 1000 ft Pull Box, White
059-488/WS/CMX	CAT5E UV Jacket, UTP CMX Cable, 1000 ft Wooden Spool, Black
059-491/CMX2K	CAT5E UV Jacket, UTP CMX Cable, 2000 FT Wooden Spool, Black

CAT5E Outdoor Cable with Messenger for Aerial Applications

Aerial Applications

059-497/MESG

059-498/S/MESG

Features:

- Galvanized Steel Messenger for Support
- Outdoor- and UV-Resistant Jacket Material
- Easily Identified Color-Striped Pairs
- 24 AWG Solid Copper Conductors
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS Compliant
- 1000 ft Wooden Spool

Item #	Description
059-497/MESG	CAT5E UTP, Outdoor-Rated Cable with Messenger, Aerial Applications, Unshielded , 24 AWG, 1000 ft, Wooden Spool
059-498/S/MESG	CAT5E F/UTP, Outdoor-Rated Cable with Messenger, Aerial Applications, Shielded , 24 AWG, 1000 ft, Wooden Spool

CAT5E Direct Burial, CMX (DUAL JACKET) - UTP & F/UTP

Item #	Description
059-486/US/CMXT	CAT5E Direct Burial, Unshielded , Dual Jacket, Waterproof, LSZH Outer Jacket, 1000 ft Pull Box, Black
059-486/CMXT	CAT5E Direct Burial, Shielded , Dual Jacket, Waterproof, LSZH Outer Jacket, 1000 ft Pull Box, Black
059-490/WS/CMXT	CAT5E Direct Burial, Shielded , Dual Jacket, Waterproof, LSZH Outer Jacket, 1000 ft Spool, Black
059-493/CMXT2K	CAT5E Direct Burial, Shielded , Waterblock Tape, Drain Wire, Dual Jacket, LSZH Outer Jacket, 2000 FT , Spool, Black

Features:

- Outdoor- and UV-Resistant Jacket Material
- Waterproof Dual Jacket
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS-Compliant
- Packaging: 1000 ft Pull Box or 2000 FT Wooden Spool

CAT5E Direct Burial, CMX (GEL-FLOODED CORE) - UTP, F/UTP

Item #	Description
059-485/CMXF	CAT5E Direct Burial, Gel-Flooded Core, Unshielded , 1000 ft, Pull Box, Black
059-489/WS/CMXF	CAT5E Direct Burial, Gel-Flooded Core, Unshielded , 1000 ft, Spool, Black
059-487/S/CMXF	CAT5E Direct Burial, Gel-Flooded Core, Shielded , Drain Wire, LLDPE Jacket, 1000 ft, Spool, Black

Features:

- Outdoor- and UV-Resistant Jacket Material
- Gel-flooded core
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS Compliant
- 1000 ft Pull Box or 2000 FT Wooden Spool

CAT5E Outdoor Cable, Cell Tower Applications

Cell Tower Applications

Item #	Description
059-494/WS/CWT	CAT5E, Cell Tower Outdoor or Direct Burial, Dual Jacket, 1000 ft Wooden Spool, Black
059-494/RB/CWT	CAT5E, Cell Tower Outdoor or Direct Burial, Dual Jacket, 1000 ft Reel in Box, Black
059-495/S1/CWT	CAT5E, Cell Tower Outdoor, Shielded , Drain Wire, 1000 ft Wooden Spool, Black
059-496/S2/CWT	CAT5E, Cell Tower Outdoor, Shielded , 95% TC Braid, 1000 ft Wooden Spool, Black

Features:

- Outdoor- and UV-Resistant Jacket Material
- 24 AWG Bare Copper Conductors
- Easy-to-See Vivid-Color Conductor Insulation & Jacket
- Exceeds ANSI/TIA-568.2-D and ISO/IEC 11801 Transmission Performance Specifications
- ETL-listed, RoHS-Compliant
- Packaging: 1000 ft Wooden Spool

CAT3 Solid 25, 50, 100 Pair CMR UTP

Item #	Description
052-441GY	CAT3 UTP, 24 AWG, 25-Pair, Gray
052-442GY	CAT3 UTP, 24 AWG, 50-Pair, Gray
052-443GY	CAT3 UTP, 24 AWG, 100-Pair, Gray

Features:

- Multipair – Cabled together with varying layers
- 24 AWG Solid Bare Copper Conductors
- PE Tape, Rip Cord
- ETL-listed, RoHS Compliant
- Riser Fire Safety Rating (CMR)
- Supplied in 500 ft / 1000 ft

Description

043-400/66K	66 Block, 50-Strip Punch down Block with Cover, Bracket and Labeling Strips
043-SA1-100	66 Block 2 Position Bridging Clip
048-120/WDS	Wire Distribution Spool, White
091-1P/CC/WB/B	Cross Connect Cable, 1 Pair, 1000 ft
078-1025	Impact punch down tool with 110/88/66 blade

Telephone Wire: 4 & 6 Conductor (Not Terminated)

Item

Description

091-719/4C/1K	Phone Cord, 6P4C, 28 AWG, Silver Satin, Stranded, 1000 FT Spool
091-722/6C/1K	Phone Cord, 6P6C, 28 AWG, Silver Satin, Stranded, 1000 FT Spool

Features:

- PVC Jacket, Silver Satin
- 7-Strand CCA Conductors
- 4 Conductor (RJ11) & 6 Conductor (RJ12)
- RoHS Compliant
- 1000 FT Spool

I-Punch Tool for V-Max Keystone Jacks

LIFETIME WARRANTY
TAA-COMPLIANT

078-2150

Remove up to 2 inches of the jacket from the cable with a cutter or a stripper. Separate all twisted pairs from each other. Preserve the wire pair twists as close as possible to the point of termination. Determine the wiring scheme and properly align all four cables accordingly on the jack. Keep the cable jacket as close to the connector as possible.

Insert prepared jack & cable assembly into the I-Punch Tool.

Firmly squeeze the handles together, release the handles and repeat this step to ensure a proper termination.

One punch - and done!

Enjoy nice clean cut, place a cap. Termination is complete.

NOW AVAILABLE FOR VC SHIELDED KEYSTONE JACKS

301, 302, 303 Series

078-2155/S

Features:

Dimensions: 19.75 mm (H) x 17 mm (W) x 31.1 mm (D)
0.78 in x 0.67 in x 1.22 in

Performance: meets or exceeds ANSI/TIA-568-2-D specifications

Wiring scheme: T568A/T568B

Materials:

RJ45 Jacks: housing: ABS+PC, UL 94 V-0;
110 IDC block: PC, UL 94 V-2;
110 contacts: phosphor bronze with tin plating;
socket contacts: phosphor bronze with
50-µin gold plating over nickel layer.
PCB: FR4, UL 94 V-0.

Mechanical:

Plug insertion force: 20 N (4.5 lbf);
Plug retention force: 75 N (17 lbf);
Plug mating life: 750 cycles min.

Environmental:

Operating temperature: -10 °C to +60 °C

302-KCJ/BL	CAT6 Keystone Coupler, Unshielded, Blue
303-KCJ/S	CAT6a Keystone Coupler, Shielded

Features:

- Life (mating cycles): 750 cycles min
- Retention Strength: 75 N (17 lbf) between jack and plug
- Insertion Force: 30 N (6.7 lbf) max. (IEC 60603-7-4)
- 50-μ in gold plating

CAT6a RJ45 Keystone Couplers - Shielded

Item #	Description
303-KCJ/S	CAT6a Keystone Coupler, Shielded

Features:

Dimensions: 19.75 mm (H) x 17 mm (W) x 31.1 mm (D)
 0.78 in x 0.67 in x 1.22 in

Performance: meets or exceeds ANSI/TIA-568-2-D specifications

Wiring scheme: T568A/T568B

Materials:

RJ45 Jacks: housing: ABS+PC, UL 94 V-0;
 110 IDC block: PC, UL 94 V-2;
 110 contacts: phosphor bronze with tin plating;
 socket contacts: phosphor bronze with 50-μin gold plating over nickel layer.
 PCB: FR4, UL 94 V-0.

Mechanical:

Plug insertion force: 20 N (4.5 lbf);
 Plug retention force: 75 N (17 lbf);
 Plug mating life : 750 cycles min.

Environmental:

Operating temperature: -10 °C to +60 °C

Compatible with all blank Vertical Cable Patch Panels

Blank Shielded Patch Panels	P42

CAT6a IP20 Coupler Modules

Item #	Description
250-ICP20-C1A	Coupler Module, IDC-to-IDC Splice, Compact, CAT6A STP, Panel Mounting, IP20
250-ICP20-C2A	Coupler Module, IDC-to-IDC Splice, Standard, CAT6A STP, Panel Mounting, IP20

CHARACTERISTICS

Transmission performance: category 6A per ANSI/TIA-568.2-D;
 category 6A per ISO IEC 11801.

Wiring schemes: T568A/T568B.

Conductor gauge: solid: 22–26 AWG.

Environmental protection: IP20.

Housing: Zinc alloy, nickel plating

IP-RATED PRODUCTS	P160
-------------------	------

Applications:

- 10BASE-T Ethernet
- 155/622 Mbps ATM
- 4/16 Mbps Token Ring
- 100VG-Any LAN

Item # Description

301-J2630/S	CAT5E Shielded Jack
302-J2631/S	CAT6 Shielded Jack
303-J2637/C6AS	CAT6a Shielded Jack

- 360° Shielding Structure to prevent EMI
- 110/Krone Type Contacts (Terminal Block)
- UL-listed, ETL-listed, RoHS Compliant

Features:

Dimensions: 19.4 mm (H) x 21.0 mm (W) x 46.8 mm (D)
0.76 in x 0.83 in x 1.84 in

Performance: meets or exceeds ANSI/TIA-568-2-D specifications
Wiring scheme: T568A/T568B

Materials:

RJ45 Jacks: housing: zinc die-casting with nickel plating;
110 IDC block: PC, UL 94 V-2;
110 contacts: phosphor bronze with tin plating;
socket contacts: phosphor bronze with 50-µin gold plating over nickel layer.
PCB: FR4, UL 94 V-0.

Mechanical:

Plug insertion force: 30 N (6.7 lbf);
Plug retention force: 75 N (17 lbf);
Plug mating life : 750 cycles min.

Electrical:

Dielectric Strength: 1000 VRMS for 1 min;
Insulation resistance: 10 MOhm min;
Contact Resistance: 2 mOhm per contact max;
Humidity: 93%;

Environmental:

Operating temperature: -10 °C to +60 °C.

Termination Instructions for Shielded Keystone Jacks

1

2

Remove about 3 in. of cable sheath. Unfold and flatten screen foil, bend it back over cable sheath. Straighten drain wire and fold it back along cable sheath. Remove all non-conductive elements by cutting them flush with cable sheath edge. Wrap screen foil around cable sheath. Make sure foil is placed with its unlaminated surface facing outwards. Wrap drain wire around screen foil in a spiral manner.

Place conductors into termination slots according to wiring scheme colors and separate pairs using wedge protrusions on connecting block.

3

Using a termination tool with 110/88/66 blade or I-Punch Tool for Shielded Keystone Jacks terminate cable's conductors.

4

Place a cap. Use the zip tie and tighten and lock the cover to the housing.

RJ45 inline Couplers

CAT5E

CAT6

CAT6a

Item #	Description
040-362/C5/S	CAT5E RJ45 inline Coupler Extension, Shielded
040-364/C5/IV	CAT5E RJ45 inline Coupler Extension, Ivory
040-365/C5/WH	CAT5E RJ45 inline Coupler Extension, White
040-366/C6/S	CAT6 RJ45 inline Coupler Extension, Shielded
040-368/C6/IV	CAT6 RJ45 inline Coupler Extension, Ivory
040-369/C6/WH	CAT6 RJ45 inline Coupler Extension, White
040-370/C6A/S	CAT6a RJ45 inline Coupler Extension, Shielded

Features:

- RJ45 Female to RJ45 Female In-line Coupler
- Available Shielded and Unshielded
- UL-listed, ETL-listed, RoHS Compliant

RJ45 Outdoor Waterproof – Shielded Couplers

Item #	Description
040-380/C5/OWP	CAT5E RJ45 Outdoor Waterproof – Shielded Coupler
040-381/C6/OWP	CAT6 RJ45 Outdoor Waterproof – Shielded Coupler
040-382/C6A/OWP	CAT6a RJ45 Outdoor Waterproof – Shielded Coupler

Features:

- Shielded RJ45 female to female coupler
- IP67 Rated - water and dust protection
- For harsh-industrial or outdoor environments
- RoHS Compliant

IP-RATED PRODUCTS	P160
-------------------	------

Thread cables to be connected through compression nuts and barrels.
 Place sealing gaskets on both ends of coupler.
 Insert plugs into coupler sockets until fully engaged.
 Screw barrels on coupler and tighten securely.

Item #	Description
042-376/12	CAT6, 110-IDC Patch Panel, 12 Port, Black
042-377/24	CAT6, 110-IDC Patch Panel, 24 Port, Black
042-378/48	CAT6, 110-IDC Patch Panel, 48 Port, Black
042-379/96	CAT6, 110-IDC Patch Panel, 96 Port, Black

Port Spacing 0.72 in (Brother label printer)
0.71 in (Epson label printer)

Features:

Performance:	meets or exceeds ANSI/TIA-568-2-D
specifications	
Wiring scheme:	T568A/T568B
Materials:	
Panel:	1.5 mm CRS, black powder coating.
RJ45 Jacks:	housing: ABS, UL 94 V-0;
	110 IDC block: PC, UL 94 V-2;
	110 contacts: phosphor bronze with nickel plating;
	socket contacts: phosphor bronze with 50-µin gold plating over nickel layer.
Connecting blocks:	housing: PC, glass-fiber reinforced, UL 94 V-2;
	110 contacts: phosphor bronze with tin plating;
	PCB: FR4, UL 94 V-0.
Cable anchors:	nylon.
Mechanical:	
Plug insertion force:	20 N (4.5 lbf);
Plug retention force:	75 N (7.7 lbf);
Plug mating life :	750 cycles min.
110 IDC durability:	250 terminations min
Environmental:	
Operating temperature:	-10 °C to +60 °C

With This Product You May Need:

Wall-Mounts
047-WFM, WFJ Series

Punch-Down Tool, Stripper
078-1028, 078-1023

Tie Wraps, Velcro Wraps
045 Series

041-375/96	CAT5E, 110-IDC Patch Panel, 96 Port, Black

Features:

Performance: meets or exceeds ANSI/TIA-568-2-D specifications

Wiring scheme: T568A/T568B

Materials:

- Panel: 1.5 mm CRS, black powder coating.
- RJ45 Jacks: housing: ABS, UL 94 V-0;
- 110 IDC block: PC, UL 94 V-2;
- 110 contacts: phosphor bronze with nickel plating;
- socket contacts: phosphor bronze with 50-µin gold plating over nickel layer.
- Connecting blocks: housing: PC, glass-fiber reinforced, UL 94 V-2;
- 110 contacts: phosphor bronze with tin plating;
- PCB: FR4, UL 94 V-0.
- Cable anchors: nylon.

Mechanical:

- Plug insertion force: 20 N (4.5 lbf);
- Plug retention force: 75 N (7.7 lbf);
- Plug mating life : 750 cycles min.
- 110 IDC durability: 250 terminations min

Environmental:

- Operating temperature: -10 °C to +60 °C

CAT5E Shielded Patch Panel, 24 & 48 Port

24 Port

48 Port

Features:

Performance:	meets or exceeds ANSI/TIA-568-2-D specifications
Wiring scheme:	T568A/T568B
Materials:	
Panel:	1.5 mm SECC, black/gray powder coating.
RJ45 Jacks:	housing: PBT with 15% GF, UL 94 V-0; jack shield: bronze; 110 IDC block: PC with 5% GF, UL 94 V-2; 110 contacts: phosphor bronze with nickel plating; socket contacts: min 3 mm 50-μin gold plating over nickel layer.
Connecting blocks:	housing: PC, glass-fiber reinforced, UL 94 V-2; 110 contacts: phosphor bronze with tin plating; PCB: FR4, UL 94 V-0.
Cable anchors:	nylon.
Ground wire:	18 AWG wire with Green/Yellow stripes, length 15.7 in (40 cm).
Mechanical:	
Plug insertion force:	900 gm for 8 contacts;
Plug retention force:	75 N (7.7 lbf);
Jack mating life :	750 cycles min. Insertion cycles at 20 cycles/minute max. Contact resistance test per 100 cycles
Environmental:	
Operating temperature:	-10 °C to +60 °C

Item

Description

041-372/S/24	CAT5E, Shielded Krone type Patch Panel, 24 Port, Black
041-373/S/48	CAT5E, Shielded Krone type Patch Panel, 48 Port, Black

Krone Tool only - 078-1988K

Comes with M6 screws (comparable to 047-WSN-0050, but longer), mini-cable-ties & grounding wire

Termination instructions - Shielded Patch Panels (CAT5E, CAT6)

1

Unscrew and remove grounding clip. Then remove 4 in. of cable sheath (shorter lengths may make difficult handling cable's conductors and screening elements). In order to avoid damaging screen foil and drain wire, sheath should be cut half-way through. Bend sheath to break it, then remove.

2

For F/UTP cables:

- Unfold and flatten screen foil, bend it back over cable sheath.
- Straighten drain wire and fold it back along cable sheath.
- Remove all cable's internal non-conductive elements by cutting them flush with cable sheath edge.
- Wrap screen foil around cable sheath. Make sure foil is placed with its unlaminated surface facing outwards.
- Cut foil excess at a distance approximately 1 in. from cable sheath edge.
- Wrap drain wire around screen in a spiral manner.

TWISTED-PAIR SYSTEMS

CAT5E: 24 Port (1 RMU) 041-372/S/24 and 48 Port (1 RMU) 041-373/S/48
 CAT6: 24 Port (1 RMU) 042-377/S/24 and 48 Port (1 RMU) 042-378/S/48
 CAT6a: 24 Port (1 RMU) 042-C6A/24 and 48 Port (1 RMU) 042-C6A/48

3

Place cable on grounding contact pad and align to ensure it comes into contact with cable screen portion with drain wire wrapped around it.

Place conductors into termination slots according to wiring scheme colors and separate pairs using wedge protrusions on connecting block.

4

Using Krone-type termination tool terminate cable's conductors. After terminating second cable, place grounding clip over both cables making sure clip comes into contact with cable screen portion with drain wire wrapped around it. Tighten clip screw firmly.

5

Using cable ties fix cables to panel's cable management bar. If required, connect grounding conductor to panel's grounding terminal post.

Blank Keystone Patch Panels - High Density

1 RMU

043-382/24/1 RMU

2 RMU

043-384/48/2 RMU

Hardware:

4 x M6 screws

Item #	Description
043-382/24/1U	Blank Patch Panel, with Cable Manager, 1 RMU, 24 Port, Black
043-384/48/2U	Blank Patch Panel, with Cable Manager, 2 RMU, 48 Port, Black

- Features:
- Constructed from heavy-duty 16-gauge steel and UL94-V-0 high-impact, fire-retardant material
 - Sturdy Cable Manager attaches to Patch Panel
 - Durable black powder coat finish

Blank Patch Panels: V-Type with Cable Manager

Item #	Description
043-383/A/24	Black Patch Panel, V-Type, 24 Port
043-384/A/48	Black Patch Panel, V-Type, 48 Port

- Features:
- Constructed from heavy-duty 16-gauge steel and UL94-V-0 high-impact, fire-retardant material
 - Durable black powder coat finish
 - Universal 19 in mounting for either left or right hinging and easy panel access
 - Allowing convenient Wall-Mounting of patch panels
 - Mounting screws are not included

Features:

- CAT6a transmission performance
- Flame-retardant PVC jacket
- Gold-plated contacts
- UL-listed and RoHS Compliant
- 4 pairs of 28-AWG stranded insulated bare copper conductors
- Available in various colors and lengths

- Reduced cable diameter increases flexibility, reduces required bend radius and cable bundle dimensions.
- Better airflow helps to cool down active equipment more efficiently.

011-020G-100	CAT5E Shielded Plug W/Holder / Hook For Drain / Ground Wire, 100 per bag
012-021-100	CAT6 & CAT6a Shielded Plug, RJ45, 8P/8C, 3 Prong, for Solid Cable, With Load Bar, 100 per bag
012-022-100	CAT6 RJ45 Modular Plug without load bar, 100 per bag
012-023/EZF-100	CAT6 Easy Feed RJ45 Plug, 8P/8C, 3 prong, for Solid/Stranded Cable, 100 per bag
012-024/10G	CAT6a RJ45, Shielded, 10G Rated, Snap in Boot Type, Individually packed
012-025/EZF-100	CAT6a Easy Feed RJ45 Modular Plug for Unshielded Cable, 100 per bag
012-026/EZF-100	CAT6a Easy Feed RJ45 Modular Plug for Shielded Cable, 100 per bag

Slip-On Boots

RJ45 Slip on Boots CAT5E/CAT6

10Pack

Features:

- 6.5 mm PVC slip-on-boot
- Fits CAT3 UTP, CAT5E UTP, CAT5E F/UTP, CAT6 UTP cable
- Fits all vertical cable RJ45 plugs except the 012-021-100 and 012-026-100 (CAT6a Shielded Plugs with the wing)
- Provides strain relief and prevents plugs from snagging

Item

Description

015-027BK-10	Slip-On Boot, for CAT5E/CAT6, Black
015-029BL-10	Slip-On Boot, for CAT5E/CAT6, Blue
015-033GY-10	Slip-On Boot, for CAT5E/CAT6, Gray
015-031GR-10	Slip-On Boot, for CAT5E/CAT6, Green
015-035OR-10	Slip-On Boot, for CAT5E/CAT6, Orange
015-037RD-10	Slip-On Boot, for CAT5E/CAT6, Red
015-039WH-10	Slip-On Boot, for CAT5E/CAT6, White
015-041YL-10	Slip-On Boot, for CAT5E/CAT6, Yellow
015-045VT-10	Slip-On Boot, for CAT5E/CAT6, Violet

RJ45 Slip on Boots CAT6/CAT6a

50-Pack

Features:

- 7.5 mm PVC slip-on-boot
- Fits CAT6 F/UTP, CAT6a UTP, CAT6a F/UTP cable
- Fits all vertical cable RJ45 plugs
- Provides strain relief and protects RJ45 plugs from and snags

Item

Description

016-045BK-50	Slip-On Boot, for CAT6/CAT6a, Black
016-046BL-50	Slip-On Boot, for CAT6/CAT6a, Blue
016-048GY-50	Slip-On Boot, for CAT6/CAT6a, Gray
016-047GR-50	Slip-On Boot, for CAT6/CAT6a, Green
016-051RD-50	Slip-On Boot, for CAT6/CAT6a, Red
016-052WH-50	Slip-On Boot, for CAT6/CAT6a, White
016-053YL-50	Slip-On Boot, for CAT6/CAT6a, Yellow

Slip-on Boots are needed for:

- Protecting plugs from damage
- Relieving stress at cable entry point
- Maintaining safe cable bend radii
- Covering external metal elements in shielded plugs
- Preventing plugs from snagging

OPTICAL FIBER SYSTEMS

OPTICAL FIBER CABLE ► ISP Cables

Indoor/Outdoor Tight Buffered (Plenum)

OPTICAL FIBER SYSTEMS

OPTICAL FIBER CABLE ► OSP Loose-Tube Cables, Non-Armored

Item #	Description
261-11900A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 12 Fibers Non-Armored, Singlemode
261-11902A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 24 Fibers Non-Armored, Singlemode
261-11904A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 36 Fibers Non-Armored, Singlemode
261-11906A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 48 Fibers Non-Armored, Singlemode
261-11908A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 72 Fibers Non-Armored, Singlemode
261-11910A	All-Dielectric Outside Plant Loose-Tube Optical Fiber Cable 96 Fibers Non-Armored, Singlemode
261-11912A	All-Dielectric Outside Plant Loose Tube Optical Fiber Cable 144 Fibers Non-Armored, Singlemode

Construction					
Fiber Count	12-72	84-96	108-144	192-216	240-288
Cable O.D. Nom.	0.41 in (10.5 mm)	0.48 in (12.2 mm)	0.59 in (15.1 mm)	0.61 in (15.6 mm)	0.71 in (18.1 mm)
Cable Weight Nom.	50 lb/kft (75 kg/km)	70 lb/kft (105 kg/km)	107 lb/kft (160 kg/km)	107 lb/kft (160 kg/km)	145 lb/kft (215 kg/km)
Fiber Color Coding per TIA-598-D	Blue, Orange, Green, Brown, Slate, White, Red, Black, Yellow, Violet, Rose, Aqua				
Fiber Count per Tube	12				
Tube Count per Cable	6	8	12	18	24
Tube Color Coding per TIA-598-D	Blue, Orange, Green, Brown, Slate, White, Red, Black, Yellow, Violet, Rose, Aqua Blue*, Orange*, Green*, Brown*, Slate*, White*, Red*, Black**, Yellow*, Violet*, Rose*, Aqua*				
Tube Material	PBT(Polybutylene Terephthalate) or TPE(Thermal Poly Elastomer)				
Water Blocking Material	Water Swellable Yarn and Tape				
Central Strength Member	FRP (Fiber Reinforced Plastic)				
Stripping material	Ripcord				
Jacket Material	Medium Density Polyethylene				

¹Tracer Color Coding:
*: Tube with black tracer | **: Tube with white tracer

(Representation of a standard 48 fiber construction)

- Features:**
- All-dry (Gel-free)
 - Loose Tube
 - All-Dielectric
 - Non-Armored
 - Color-Coded Fibers

- Applications:**
- Outside Plant Installations
 - Duct
 - Aerial Lashed

Characteristics	
Type of Fiber	ITU-T G.652.D
Mode Field Diameter	9.2±0.4 μm at 1310 nm
Maximum Attenuation	0.35 dB/km at 1310 nm 0.35 dB/km at 1383 nm 0.25 dB/km at 1550 nm

Standards and Certifications
ITU-T G.650, IEC 60793, IEC 60794, RUS 7 CFR 1755, TELCORDIA GR-20, ISO 9001, ISO 14001, ANSI/TIA-568.3-D, TIA-598-D OHSAS 18001

- Direct Burial
- Color-Coded Fibers

Applications:

- Outside Plant Installations
- Direct Burial
- Duct

(Representation of a standard 48 fiber construction)

Installation Requirements – Mechanical & Environmental

Temperature	Storage: -40 °F to +167 °F (-40 °C to +75 °C) Installation: -22 °F to +140 °F (-30 °C to +60 °C) Operation: -40 °F to +158 °F (-40 °C to +70 °C)
Min Bend Radius	Loaded: 20 X Cable O.D. Unloaded: 10 X Cable O.D.
Tensile Strength	Installation: 2700 N (600 lbf) Long Term: 800 N (180 lbf)

CHARACTERISTICS

Compatibility: all Vertical Cable faceplates and surface-mount boxes designed to mount keystone modules.

Fiber types: SM 9/125;
MM 50/125;
MM 62.5/125.

Plug types: UPC;
APC.

Adapter sleeves: Zirconia ceramic split sleeves.

Insertion loss (IL): 0.3 dB or lower (when used with standard-compliant plugs).

Return loss (RL): UPC: ≥55 dB (when used with standard-compliant plugs);
APC: ≥65 dB (when used with standard-compliant plugs).

Mounting dimensions:

266-PMD01-1A3A	Optical Fiber Rack-Mount Panel, LGX, Three-Position, 1 RMU

AVAILABLE Q4 2021

CHARACTERISTICS

Form-factor:	19-in rack/cabinet mounting standard (EIA-ECA-310-E).
Capacity:	three LGX adapter plates; up to 72 optical fibers.
Materials:	1.5-mm (16-GA) CRS; black powder coating.
Cable management:	266-PMD01-1A3A: integral, rear; 266-PMD01-2A3A: mountable (snap-in), interchangeable, front and/or rear.
Environmental:	operating temperature: -20 °C–+70 °C (-4 °F–+158 °F); operating humidity: ≤95 % RH non-condensing.
Dimensions:	W: 485 mm (19 in); H: 44.5 mm (1.75 in) [1 RMU]; D: 15 mm (0.6 in) panel frame; D: 125 mm (5 in) with CMB.
Weight:	0.25 kg (0.6 lb) without cable management.

- 268-ACC03-11-xy Accessory FM/Splicing Stage, EZX/EZV-Series 1-Position, 1 Splice Holder
- 268-ACC03-12-xy Accessory FM/Splicing Stage, EZX/EZV-Series 1-Position, 2 Splice Holders

Substitute "x" in PN with:

"O": no sleeves;
 "A": 2 sleeves;
 "B": 4 sleeves;
 "C": 6 sleeves;
 "D": 8 sleeves;
 "E": 12 sleeves;
 "F": 24 sleeves (268-ACC03-12 only).

Substitute "y" in PN with:

"O": no sleeves;
 "A": 40-mm sleeves.

Splice holder capacity: twelve splice sleeves, stacked in two rows in six positions.
 Each splice holder supplied with twelve 2.5 mm × 40 mm sleeves (265-SLV01-3A).

- 268-ACC03-xy Accessory FM/Splicing Stage, EZX/EZV-Series 2- & 4-Position, 1 Splice Tray
- 268-ACC03-xy Accessory FM/Splicing Stage, EZX/EZV-Series 2- & 4-Position, 2 Splice Trays

Substitute "x" in PN with:

"O": no sleeves;
 "A": 2 sleeves;
 "B": 4 sleeves;
 "C": 6 sleeves;
 "D": 8 sleeves;
 "E": 12 sleeves;
 "F": 24 sleeves.

Substitute "y" in PN with:

"O": no sleeves;
 "A": 40-mm sleeves.

Splice tray capacity: two six-position splice holders.
 Splice holder capacity: twelve splice sleeves, stacked in two rows in six positions.
 Each splice holder supplied with twelve 2.5 mm × 40 mm sleeves (265-SLV01-3A).

Splice Sleeves	P86
Splice Trays/Cassettes	P84

CROSS-CONNECT ▶ Surface- and Wall-Mount Enclosures
Adapter Plate Surface-Mount Box

268-SMB01-1A1 Optical Fiber Surface-Mount Box, Standard-Series, LGX, One-Position

CHARACTERISTICS

- Capacity: one LGX adapter plate;
 up to 24 optical fibers;
 up to two 12-fiber splice holders.
- Materials: 1.5-mm (15-GA) aluminum alloy;
 black powder coating.
- Access: single door, panel fasteners ("push-pins"/"plunger locks").
- Mounting: surface/wall.
- Cable management: two grommeted entry openings;
 two mounting positions for MPO adapters;
 cable anchor points;
 set of cable ties.
- Fiber management: anchor points, rings.
- Environmental: operating temperature: -20 °C--+70 °C (-4 °F--+158 °F);
 operating humidity: ≤95 % RH non-condensing.
- Dimensions: W: 160 mm (6.3 in), H: 140 mm (1.6 in), D: 32 mm (1.3 in).

268-EZM01-1A12	268-EZM01-1A12 Splice Holder, Set of 2

CHARACTERISTICS

Compatibility:	all Vertical Cable 264-MAP and 264-LAP series adapter plates.
Mounting:	35-mm DIN rail; detachable DIN-rail clip.
Materials:	aluminum alloy; black powder coating.
Capacity:	one LGX adapter plate; up to 24 fibers (264-LAP series adapter plates); up to 6 keystone modules (264-MAP01-1A06 adapter plate); 1 or 2 splice holders, 12 fibers per holder, 24 fibers total; 1 or 2 cable entry point adapters (see accessories).
Cable management:	cable anchor point (bridge lance); fiber/splice management stage, removable; set of cable ties.
Dimensions:	W: 35 mm (1.4 in) [2 DU], H: 170 mm (6.7 in), D: 150 mm (6 in).
Weight:	350 g (12.5 oz).
Compliance:	IEC/EN 60715; DIN 43880; ANSI/TIA-568.3-D; GR-769; Directive 2011/65/EU Am. 2015/863/EU (RoHS2).
DIN-rail clip:	material: fiberglass-reinforced nylon 66 (PA66, GF: 30 %); width: 35 mm; mounting: spring-loaded latch; compliance: Directive 2011/65/EU Am. 2015/863/EU (RoHS2).
Environmental:	operating temperature: -10 °C–60 °C (14 °F–140 °F); storage temperature: -40 °C–70 °C (-40 °F–158 °F); operating humidity: 93 % RH max non-condensing.

Plate materials:	aluminum alloy, black powder coating						
Plate dimensions:	60 mm × 30 mm (2.4 in × 1.2 in)						
Grommet material:	Thermoplastic Elastomer, TPE (UL 94 V-2)						
Opening size:		40 mm × 20 mm (1.6 in × 0.8 in)			cable O.D.: ≤8 mm (0.3 in)	cable O.D.: ≤12 mm (0.5 in)*	cable O.D.: ≤6.5 mm (0.25 in)
Gland form-factor:							M12/PG7
Gland material:							polyamide / neoprene

* 268-EZM01-1A05 due to its grommet size can be used only in the top position.

This modular design allows to place the cassette in three different positions within the bay:

1. Full depth: operating position - cassette is completely covered and protected by the bay and fixed to it with the help of a thumb screw.

2. Half-depth: this position allows to perform manipulations on the LGX adapter plate connections without removing the cassette from the bay.

Kit includes:

Bay × 1; Cassette × 1; FM stage × 1; DIN-Rail Clip × 1; Cable Tie × 2.

HOW TO CHOOSE CORRECT PN

Tables below allow to choose the PN you need using a visual identification of adapter plates and adapters.

- STEP 1** Find the adapter type you need in one of the horizontal rows.
- STEP 2** Choose at the top of the table the column with the type of adapter plate you need.
- STEP 3** At the intersection of the row and column find the PN for the finished product.

Color code reference
(per ANSI/TIA-568.3):

BLUE
adapter is intended to be used for connecting cabling based on SM fiber and UPC plugs.

GREEN
adapter is intended to be used for connecting cabling based on SM fiber and APC plugs.

AQUA
adapter is intended to be used for connecting cabling based on OM3 fiber.

HEATHER VIOLET
adapter is intended to be used for connecting cabling based on OM4 fiber.

Please, note that adapter body color is used for identification purposes only and does not denote adapter's transmission performance. All Vertical Cable's adapters are equipped with the same zirconia ceramic split sleeves capable to efficiently connect all types of fibers.

Orientation (cable entry angle) of all rear adapter plates can be changed in the field by repositioning the adapter plate without disassembling the cassette LF-CR.

Factory default – central position.

EACH CASSETTE KIT INCLUDES: BASE WITH COVER;
FRONT BRACKET WITH INSTALLED ADAPTERS;
TWO BLANK REAR ADAPTER PLATES.

ACCESSORIES

264-MCB01-A211	Rear Cable Entry Adapter: 1 × MPO, Type A, Lateral Orientation
264-MCB01-A221	Rear Cable Entry Adapter: 2 × MPO, Type A, Lateral Orientation
264-MCB01-A212	Rear Cable Entry Adapter: 1 × MPO, Type A, Transversal Orientation
264-MCB01-A221	Rear Cable Entry Adapter: 2 × MPO, Type A, Transversal Orientation
264-MCB01-A312	Rear Cable Entry Adapter: 1 × M12/PG7 Cable Gland
264-MCB01-A41	Splice Holder, Adhesive Mounting, Set of 1
264-MCB01-A42	Splice Holder, Adhesive Mounting, Set of 2

CHARACTERISTICS

Compatibility:	LGX-compatible mounting hardware with the following minimum rear depth space: 200 mm (8.0 in) for enclosed units; 160 mm (6.5 in) for open units.	
Mounting:	standard LGX footprint and mechanism: overall profile dimensions: 30 mm × 130 mm (1.18 in × 5.12 in); mounting opening dimensions: 29 mm × 103 mm (1.14 in × 4.06 in) min; distance between mounting holes: 118 mm (4.65 in) etc.	
Materials:	aluminum alloy; black powder coating; panel fasteners: nylon/ABS.	
Interfaces:	front: adapters:	SC SX, SC DX, LC DX, LC QX;
	rear: adapters:	MPO-12 Type A flanged (see accessories);
	cable gland:	M12/PG7.
Adapter IL:	SC, LC:	0.3 dB or lower (when used with standard-compliant plugs);
	MPO:	0.35 dB (low-loss SM); 0.7 dB (SM); 0.35 dB (low-loss MM); 0.6 dB (MM).
Return loss (RL):	SC, LC:	UPC: ≥55 dB (when used with standard-compliant plugs); APC: ≥65 dB (when used with standard-compliant plugs);
	MPO:	-65 dB (8° low-loss SM); -65 dB (8° SM); -25 dB (low-loss MM); -25 dB (MM).
Adapter sleeves:	zirconia ceramic split sleeves.	
Splicing:	one or two 12-position fusion-splice holders (see accessories).	
Connector compliance:	IEC 61754-4 (type SC connector family), TIA-604-3 (FOCIS 3); IEC 61754-20 (type LC connector family), TIA-604-10 (FOCIS 10B); IEC 61754-7-1 (type MPO connector family), TIA-604-5 (FOCIS 5).	
Dimensions:	cassette box:	W: 130 mm (5.12 in), H: 29 mm (1.14 in), D: 130 mm (1.18 in);
	assembled cassette:	W: 130 mm (5.12 in), H: 29 mm (1.14 in), D: 130 mm–145 mm (5.12 in–5.7 in).
Weight:	cassette box:	150 g (5.3 oz);
	assembled cassette:	~200 g (7.0 oz), varies depending on configuration.
Environmental:	operating temperature:	-10 °C–60 °C (14 °F–140 °F);
	storage temperature:	-40 °C–70 °C (-40 °F–158 °F);
	operating humidity:	95 % RH max non-condensing.
Compatibility:	Telcordia GR-326-CORE.	
Compliance:	ANSI/TIA-568.3-D; GR-769; ANSI/UL 94 V-0; Regulation (EC) No 1907/2006 (REACH); Directive 2011/65/EU Am. 2015/863/EU (RoHS2).

Splice Trays/Cassettes

265-CAS01-1B2xy Optical fiber splice tray/cassette, compact, stackable, 24-fiber, black

Substitute "x" in PN with:		Substitute "y" in PN with:	
"O":	no sleeves;	"O":	no sleeves;
"A":	2 sleeves;	"A":	40-mm sleeves.
"B":	4 sleeves;		
"C":	6 sleeves;		
"D":	8 sleeves;		
"E":	12 sleeves;		
"F":	24 sleeves.		

265-CAS01-1B2 splice tray/cassette is supplied with two splice holders and custom number of 40-mm 265-SLV01-3A splice sleeves.
PN example: 265-CAS01-1B2EA Optical fiber splice tray/cassette, compact, stackable, 24-fiber, black, twelve 40-mm sleeves.

265-CAS01-2B2xy Optical fiber splice tray/cassette, standard, stackable, 24-fiber, transparent cover, black

Substitute "x" in PN with:		Substitute "y" in PN with:	
"O":	no sleeves;	"O":	no sleeves;
"A":	2 sleeves;	"A":	40-mm sleeves;
"B":	4 sleeves;	"B":	60-mm sleeves.
"C":	6 sleeves;		
"D":	8 sleeves;		
"E":	12 sleeves;		
"F":	24 sleeves.		

265-CAS01-2B2 splice tray/cassette is supplied with two splice holders and custom number of 40-mm 265-SLV01-3A or 60-mm 265-SLV01-3B splice sleeves.

PN example:
265-CAS01-2B2FB Optical fiber splice tray/cassette standard stackable, transparent cover, white, twenty-four 60-mm sleeves.

CHARACTERISTICS

Compatible splicing:		fusion splice, heat-shrink protection sleeves.	
Capacity:	265-CAS01-1B2:	24 fibers (24 265-CAS01-1B2 sleeves);	
	265-CAS01-2B2:	24 fibers (24 265-CAS01-1B2 or 265-CAS01-2B2 sleeves).	
Features:	265-CAS01-1B2:	two splice holders; fiber-management and slack storage mechanism; cable anchoring points; vertically stackable.	
	265-CAS01-2B2	two splice holders; fiber-management and slack storage mechanism; cable anchoring points; vertically stackable; transparent cover; administration ID label.	
Materials:	body:	ABS (acrylonitrile butadiene styrene);	
	splice holder:	PP (polypropylene).	
Environmental:	operating temperature:	-20 °C–+70 °C (-4 °F–+158 °F);	
	operating humidity:	≤95 % RH non-condensing.	
Dimensions:	265-CAS01-1B2:	140 mm × 100 mm × 12 mm (5.5 in × 4.0 in × 0.5 in);	
	265-CAS01-2B2:	225 mm × 105 mm × 12 mm (8.9 in × 4.1 in × 0.5 in).	
Weight:	265-CAS01-1B2:	70 g (2.5 oz)	
	265-CAS01-2B2:	50 g (1.8 oz)	
Compliance:		Telcordia GR-771-CORE; RoHS.	
Compatibility:	265-CAS01-1B2:	Vertical Cable 267-RES, 267-REB, 268-STD, 268-EZX, 268-EZV Series	
	265-CAS01-2B2:	Vertical Cable 267-RES, 267-REB Series

Splice Holders

265-HLD01-2B-xy

Optical fiber splice holder, adhesive mounting, two fibers per slot, six slots, twelve fibers

Substitute “-x” in PN with:

Substitute “y” in PN with:

“O”: no sleeves;
“A”: 2 sleeves;
“B”: 4 sleeves;
“C”: 6 sleeves;
“D”: 8 sleeves;
“E”: 12 sleeves.

“O”: no sleeves;
“A”: 40-mm sleeves;
“B”: 60-mm sleeves.

PN example:

265-HLD01-2B-00 Optical fiber splice holder, adhesive mounting, no sleeves.

PN example:

265-HLD01-2B-EB Optical fiber splice holder, adhesive mounting, twelve 60-mm sleeves.

CHARACTERISTICS

- Compatible splicing: fusion splice, heat-shrink protection sleeves.
- Capacity: 6 slots × 2 fibers/slot = 12 fibers.
- Material: polypropylene (PP).
- Color: black.
- Mounting type: adhesive pad.
- Environmental: operating temperature: -20 °C–+70 °C (-4 °F–+158 °F); operating humidity: ≤95 % RH non-condensing.
- Dimensions: 40 mm × 30 mm × 7 mm (1.6 in × 1.2 in × 0.3 in).
- Weight: 3 g (0.1 oz)
- Compliance: ANSI/UL 94 V-2.

Splice Sleeves	P88
----------------	-----

Splice Protection Sleeves

265-SLV01-3A-x

Optical fiber splice protection sleeve, 2.5 mm × 40 mm, pack of “x”

265-SLV01-3B-x

Optical fiber splice protection sleeve, 2.5 mm × 60 mm, pack of “x”

Substitute “-x” in PN with:

“E”: 12 sleeves;
“F”: 24 sleeves;
“G”: 48 sleeves;
“H”: 96 sleeves.

CHARACTERISTICS

- Diameter: external tubing: 2.5±0.3 mm (0.1±0.01 in) after shrinking;
internal tubing: 1.3±0.1 mm (0.05±0.01 in);
rod: 1.2±0.05 mm (0.05±0.002 in).
- Length: 265-SLV01-3A: overall: 40±2 mm (1.6±0.08 in);
rod: 34±2 mm (1.3±0.08 in);
265-SLV01-3B: overall: 60±2 mm (2.4±0.08 in);
rod: 54±2 mm (2.1±0.08 in).
- Weight: 265-SLV01-3A: 0.5 g (0.02 oz);
265-SLV01-3B: 0.7 g (0.03 oz).
- Materials: external tubing: polyolefin (PAO);
internal tubing: ethylene-vinyl acetate (EVA);
rod: stainless steel.
- Shrinking temperature: ≥100 °C (212 °F).

Cable diameter range	7 mm–14 mm (0.28 in–0.55 in)	8 mm–16 mm (0.32 in–0.63 in)	8 mm–21 mm (0.32 in–0.83 in)
Dimensions	280 mm × 200 mm × 90 mm (11.0 in × 7.9 in × 3.5 in)	290 mm × 180 mm (11.4 in × 7.1 in)	455 mm × 220 mm (17.9 in × 8.7 in)
Weight*	1.2 kg–1.5 kg (2.7 lb–3.3 lb)	1.8 kg–1.9 kg (4.0 lb–4.2 lb)	3.3 kg–4.2 kg (7.3 lb–9.3 lb)
Material	High-impact fiber-reinforced PC		
Environmental protection	IP68		
Radiation protection	UV resistant		
Operating temperature	-40 °C–+65 °C (-40 °F–+149 °F)		

* Weight range is given depending on the number of splice cassettes installed, none to maximum.

CHARACTERISTICS

	SM UPC	OM1	OM3	OM4
Fiber class:	G.652.D OS2	OM1	OM3	OM4
Fiber type:	9/125 μm	62.5/125 μm	50/125 μm	
Ferrule material:	Ceramic			
Plug body/boot color:	Blue	Beige	Aqua	Heather Violet
Jacket diameter:	2 mm			
Jacket length:	±50 mm (±2 in)			
Jacket material:	(PVC) polyvinylchloride			
Jacket color:	Yellow	Orange	Aqua	
Insertion loss:	≤0.3 dB			
Insertion loss repeatability:	≤0.2 dB after 1000 mating cycles			
Return loss:	≥50 dB	≥30 dB		
Operating temperature:	-25 °C–+75 °C (-13 °F–+167 °F)			
Operating humidity:	≤95 % RH non-condensing			
Storage temperature:	-45 °C–+85 °C (-49 °F–+185 °F)			
Compliance:	ANSI/TIA-568.3-D			

OSP Anchor Clamps	269-OPH00-01110	269-OPH00-011415
Cable construction:	Round ADSS	
Cable OD diameter:	8 mm–11 mm (0.3 in–0.4 in)	11 mm–14 mm (0.4 in–0.6 in)
Load capacity:	≤10 kN (~2,250 lbf)	≤15 kN (~3,370 lbf)
Cable retention mechanism:	Tension, self-adjusting plastic wedges	
Housing material:	Aluminum alloy	
Bail material:	Stainless steel	
Operating temperature:	-40 °C–+70 °C (-40 °F–+158 °F)	
Mounting:	Wall or pole using clamp anchor points (brackets)	
Applications:	Dead-end support/drop, suspension support	

OSP Suspension Clamps	269-OPH01-01204	269-OPH01-01504	269-OPH01-02004	269-OPH01-80802	269-OPH01-D0P3
					
Cable construction:	Round ADSS, self-supporting, or drop			Messenger ("8 in)	Round drop
Cable/messenger OD diameter:	8 mm–12 mm (0.3 in–0.5 in)	10 mm–15 mm (0.4 in–0.6 in)	15 mm–20 mm (0.6 in–0.8 in)	4 mm–8 mm (0.16 in–0.4 in)	2 mm–8 mm (0.08 in–0.4 in)
Load capacity:	4 kN (~900 lbf)			2 kN (~450 lbf)	0.3 kN (~70 lbf)
Span, max:	100 m (~330 ft)				70 m (230 ft)
Line/span angle, max:	25 °			20 °	20 °
Cable retention mechanism:	Rubber gripping insert, screw-adjustable compression			Screw-adjustable compression	Compression
Housing material:	Galvanized steel				Nylon, UV resistant
Insert material:	Neoprene			—	Elastomer
Operating temperature:	-40 °C–+70 °C (-40 °F–+158 °F)				
Mounting:	Wall or pole using clamp anchor points (brackets)				
Applications:	Horizontal support			Support for cables with a messenger	Support for FTTH drop cables

INSTALLATION, TESTING, MAINTENANCE ▶ Installation Accessories

OSP Tension Clamps	269-OPH02-80702	269-OPH02-80902	269-OPH02-D10P7	269-OPH02-D11P2
				
Cable construction:	Self-supporting drop "8 in, fiber-reinforced plastic (FRP) or aramid yarn messenger		FTTH drop	
Cable/messenger OD diameter:	3 mm–7 mm (0.12 in–0.3 in)	6 mm–9 mm (0.25 in–0.35 in)	3 mm–5 mm (0.12 in–0.2 in)	3 mm–7 mm (0.12 in–0.3 in)
Load capacity:	2 kN (~450 lbf)		0.7 kN (~160 lbf)	1.2 kN (~270 lbf)
Cable retention mechanism:	Tension, self-adjusting wedges		Tension, wedge, and perforated shim	
Material:	Fiberglass-reinforced plastic		Stainless steel Type 201	
Length:	—	—	150 mm (8.7 in)	220 mm (8.7 in)
Bail material:	Stainless steel			
Bail length:	230 mm (9 in)			
Operating temperature:	-60 °C–+60 °C (-76 °F–+140 °F)			
Mounting:	Wall or pole using clamp anchor points (brackets)			
Applications:	Dead-end support/drop			

OSP Brackets	269-OPH10-0115	269-OPH10-0304
	 	 
Load capacity:	15 kN (~3,370 lbf)	5 kN (~1,120 lbf)
Material:	Aluminum alloy	
Dimensions:	116 mm × 35 mm × 20 mm (4.6 in × 1.4 in × 0.8 in)	120 mm × 100 mm × 50 mm (4.7 in × 4 in × 2 in)
Mounting:	Wood, concrete, metal poles Steel bands or bolts	
Applications:	Anchor point for clamps (single/double)	Anchor point for clamps Horizontal support: up to 3 clamps Drop: up to 5 clamps

OSP Hooks	269-OPH30-011P5
	  
Load capacity:	1.5 kN (~340 lbf)
Material:	Galvanized steel
Dimensions:	65 mm × 65 mm × 55 mm (4.6 in × 1.4 in × 0.8 in)
Mounting:	Wood, concrete, metal poles Steel bands or screws
Applications:	Anchor point for clamps

OSP Steel Banding

269-OPH20-42050 OSP Stainless Steel Banding Strap Roll

CHARACTERISTICS

Material: stainless steel, Type 304.
 Breaking point: 10 kN (2,250 lbf).
 Dimensions: width: 19 mm (0.75 in);
 thickness: 0.76 mm (0.03 in);
 length: 50 m (~164 ft).
 Operating temperature: -60 °C–+60 °C (-76 °F–+140 °F).
 Packing: plastic dispenser with handle

269-OPH21-420L OSP Stainless Steel Banding Strap Buckle L-type

CHARACTERISTICS

Material: stainless steel, Type 304.
 Compatibility: SS band 19 mm × 0.76 mm (0.75 in × 0.03 in).

269-OPH21-420T OSP Stainless Steel Banding Strap Buckle T-type

CHARACTERISTICS

Material: stainless steel, Type 304.
 Compatibility: SS band 19 mm × 0.76 mm (0.75 in × 0.03 in).

- **Sturdy dispenser with handle**
- **Stainless steel**
- **Strong lock**

269-OPH22-0120 OSP Steel Banding Tool Rotary Type

CHARACTERISTICS

- Features:

Materials:

Compatibility:

Pulling tension:

Dimensions:

Weight:
- built-in cutter to trim the banding;
spring-loaded gripper lever.

drop-forged steel, epoxy powder coating.

SS band 19 mm × 0.76 mm (0.75 in × 0.03 in).

>10.7 kN (2,400 lbf).

length: 250 mm (10 in);
height: 80 mm (3 in);
width: 100 mm (4 in).

2 kg (4.4 lb).

269-OPH22-0220 OSP Steel Banding Tool Jack Type

CHARACTERISTICS

- Features:

Materials:

Compatibility:

Pulling tension:

Dimensions:

Weight:
- built-in cutter to trim the banding;
ratcheted gripper mechanism.

drop-forged steel, epoxy powder coating.

SS band 19 mm × 0.76 mm (0.75 in × 0.03 in).

>10.7 kN (2,400 lbf).

length: 235 mm (9.3 in);
height: 80 mm (3 in);
width: 100 mm (4 in).

1.8 kg (4 lb).

Break-out Kits

269-BOK12-20312 Optical Fiber Cable Break-out Kit, 12-Fiber
269-BOK24-20312 Optical Fiber Cable Break-out Kit, 24-Fiber

CHARACTERISTICS

	269-BOK12-20312	269-BOK24-20312
Fiber count:	12	24
Cable diameter:	5.8 mm (0.23 in)	8.4 mm (0.33 in)
Cable structure:	Single-jacket tight-buffer round	
Fiber buffer diameter:	900 μm	
Tube diameter:	2 mm (0.08 in)	
Material:	Polyoxymethylene (POM)	
Dimensions:	14 mm × 45 mm (0.55 in × 1.77 in)	18 mm × 48 mm (0.71 in × 1.89 in)

Cable and Fiber Preparation Tool Kit

269-PRE01

Optical Fiber Preparation Tool Kit - Basic

Contents:

No.	Item	Quantity	PN for reordering*
1	Cable cutter, round	1	078-1024
2	Safety goggles	1	269-PAC01-0001
3	Pre-moistened wipes, IPA, 1 pack	5	269-PAC03-0004
4	Cleaning agent dispensing bottle, 100 ml (3.4 fl oz)**	1	269-PAC03-0007
5	Cleaning cotton swabs, tipped, 2.5 mm, 25-pack	1	269-PAC03-0008
6	Optical fiber cable jacket stripper (dia. 0.8 mm–2.6 mm)	1	269-PAC05-006***
7	Electrician scissors, 5-½ in	1	269-PAC04-0003
8	Cable jacket cutting and slitting tool, dia. 1.2 mm–6.4 mm	1	078-1022
9	Kevlar scissors	1	269-PAC04-0005
10	Permanent marker, fine-point, black	1	269-PAC05-0002
11	Ruler, SI/USCU, 12-in, stainless steel	1	269-PAC05-0003
12	Electrical tape, multicolor, six rolls, 18 mm x 2 m (0.7 in x 6.6 ft)	1	269-PAC05-0004
13	Optical fiber stripper (dia. 0.25 mm–3 mm)	1	269-PAC05-0006
14	Portable carrying soft-case bag		-

* Re-ordered products may not be identical to those in the original kit but would have the same functional properties.

** Spray bottle is supplied empty due to shipping safety restrictions.

*** No direct replacement of Optical fiber cable jacket stripper is available for reordering. Offered replacement is similar, but not 100% equivalent.

1	Optical fiber connector cleaner dispenser type	1	269-PAC03-0001
2	Cleaning foam swabs tipped 2.5-mm pack of 50	1	269-PAC03-0002
3	Cleaning foam swabs tipped 1.25-mm pack of 50	1	269-PAC03-0003
4	Pre-moistened wipes IPA 1-pack	10	269-PAC03-0004
5	Optical fiber connector cleaning cube 120 cap.	1	269-PAC03-0005
6	Cleaning agent dispensing bottle, 100 ml (3.4 fl oz)**	1	269-PAC03-0006

* Re-ordered products may not be identical to those in the original kit but have the same functional properties.
** Spray bottle is supplied empty due to shipping safety restrictions.

Maintenance Tools

LC Plug Insertion/Extraction Tool

269-SAM01-1A Optical Fiber Connector Insertion-Extraction Tool LC

CHARACTERISTICS

Mode of operation: insertion/extraction.
Compatibility: LC style connectors, simplex and duplex.
Material: glass-filled PPS.

Fiber Cleaver with Scrap Collector

269-CVR01-1A	Optical fiber precision cleaver with scrap collector
269-CVR01-1A-1	Replacement blade for 269-CVR01-1A
269-PAC02-0001	Portable carrying soft-case bag

CHARACTERISTICS

Fiber count:	single.
Fiber type:	silica core/clad.
Fiber coating size:	250 μm –900 μm .
Fiber cladding size:	125 μm .
Anvil type:	automatic drop.
Operating mode:	semiautomatic.
Blade type:	rotating, 24 positions.
Blade life:	48,000 cleaves.
Cleave distance:	250 μm : 9 mm–16mm; 900 μm : 10 mm–16 mm.
Cleave angle:	$\leq 0.5^\circ$.
Dimensions:	W: 65 mm (2.6 in) D: 75 mm (3 in) H: 65 mm (2.6 in).
Weight:	430 g (1 lb).
Optional:	standard tripod mounting joint.

OPTICAL FIBER SYSTEMS

Portable Fiber Cleaver

269-CVR02-1A	Optical fiber cleaver portable
269-CVR02-1A-1	Replacement blade for 269-CVR02-1A

CHARACTERISTICS

Fiber count:	single.
Fiber type:	silica core/clad.
Fiber coating size:	250 μm –900 μm .
Fiber cladding size:	80 μm –200 μm .
Blade type:	wedge.
Blade material:	metal carbide.
Blade life:	6,000 cleaves.
Cleave distance:	2 mm–20mm.
Dimensions:	L: 124 mm (4.8 in) W: 20 mm (0.8 in) H: 40 mm (1.6 in).
Weight:	60 g (2 oz).

Optical Fiber Inspection Tools ▶ Heavy-Duty Field VFL

269-VFL01 Optical Fiber Visual Fault Locator, Hand-Held, 5-mW, 2.5-mm Adapter
 269-VFL01-1A 1.25-mm Adapter for 269-VFL01

CHARACTERISTICS

Light source: 650-nm laser diode (Class 3R/IIIA).
 Modes of operation: continuous or pulse (2–3 Hz).
 Plug compatibility: 2.5-mm and 1.25-mm ferules.
 Fiber compatibility: multimode: 50–62.5- μ m core;
 singlemode: 8–10- μ m core.
 Output power: singlemode fiber: >0.5 mW (-3 dB).
 Detection distance: 6 km max.
 Power: two 1.5-V AA;
 continuous operation: $\geq$ 40 h.
 Protection: end cap per radiation safety standards.
 Dimensions: diameter: 24 mm (1 in);
 length: 170 mm (6.7 in) without adapter.
 Weight: 160 g (5.6 oz) without batteries.
 Storage temperature: -45°C – +85°C (-49°F – +185°F).
 Operating temperature: 0°C – +70°C (32°F – +158°F).
 Operating humidity: $\leq$ 95 % RH non-condensing.
 Compliance: CFR Title 21 Part 1002, ANSI/IEC/U.S. FDA Class 3R/IIIA.

Pen-Style Pocket VFL

269-VFL02 Optical Fiber Visual Fault Locator, Pen-Style, 5-mW, 2.5-mm, Adapter
 269-VFL02-1A 1.25-mm Adapter for 269-VFL02

CHARACTERISTICS

Light source: 650-nm laser diode (Class 3R/IIIA).
 Modes of operation: continuous or pulse (2–3 Hz).
 Plug compatibility: 2.5-mm and 1.25-mm ferules.
 Fiber compatibility: multimode: 50–62.5- μ m core;
 singlemode: 8–10- μ m core.
 Output power: singlemode fiber: >0.5 mW (-3 dB).
 Detection distance: 6 km max.
 Power: two 1.5-V AAA alkaline;
 continuous operation: $\geq$ 40 h.
 Protection: end cap per radiation safety standards.
 Dimensions: diameter: 14 mm (0.6 in);
 length: 170 mm (6.7 in) without adapter.
 Weight: 88 g (3 oz) with batteries.
 Storage temperature: -20°C – +60°C (-4°F – +140°F).
 Operating temperature: 0°C – +40°C (32°F – +104°F).
 Operating humidity: $\leq$ 95 % RH non-condensing.
 Compliance: CFR Title 21 Part 1002, ANSI/IEC/U.S. FDA Class 3R/IIIA.

Light Sources and Power Meters

269-OLS01-1235	Optical Fiber Tester – Light Source, Dual-Emitter, Four-Wavelength (850/1300 nm, 1310/1550 nm)
269-OPM01	Optical Fiber Tester – Power Meter
269-OTK01-0101*	Optical Fiber Tester – Light Source and Power Meter Kit (269-OLS01-1235, 269-OPM01)

* Includes soft-case carrying bag accommodating both units and accessories.

269-OLS01-1235

Kit includes:

- 1 × 269-OLS01-1235 unit
- 1 × Soft-case carrying pouch
- 1 × Software CD
- 1 × USB cable
- 1 × User guide
- 1 × Calibration certificate
- 2 × FC/PC adapter
- 2 × SC/PC adapter
- 3 × 2.5-mm split ceramic sleeve

Light source:	dual LD, Class I.
Source wavelengths:	850 nm; 1300 nm; 1310 nm; 1550 nm.
Source spectral width:	5 nm.
Source stability:	short-term (15 min): ± 0.10 dB at 850/1300 nm; ± 0.05 dB at 1310/1550 nm; long-term (8 h): ± 0.20 dB at 850/1300 nm; ± 0.10 dB at 1310/1550 nm.
Source output power:	-5 dBm ± 0.5 dB.
Source modulation:	270 Hz; 1 kHz; 2 kHz.
Central wavelengths:	850 ± 20 nm; 1300 ± 20 nm; 1310 ± 20 nm; 1550 ± 20 nm.
Display:	LCD monochrome; backlight mode.
Interface type:	interchangeable; FC/PC; SC/PC.
Power supply:	rechargeable batteries: 2 × Ni-MH AA (2500 mA-h); non-rechargeable batteries: 2 × AA R6 1.5 V; low-battery indicator; auto power off.
Storage temperature:	-20°C – +70°C (-4°F – +158°F).
Operating temperature:	-10°C – +50°C (14°F – +122°F).
Operating humidity:	≤ 90 % RH non-condensing.
Dimensions:	L: 160 mm W: 75 mm H: 45 mm; L: 6.3 in W: 3 in H: 1.8 in
Weight:	270 g (9.5 oz).

269-OPM01

Kit includes:

- 1 × 269-OPM01 unit
- 1 × Soft-case carrying pouch
- 1 × Software CD
- 1 × USB cable
- 1 × User guide
- 1 × Calibration certificate
- 1 × FC/PC adapter
- 1 × SC/PC adapter

Wavelength range:	800–1700 nm;
Calibrated wavelengths:	850 nm; 1300 nm; 1310 nm; 1490 nm; 1550 nm; 1625 nm.
Wavelength detection:	fully automatic (input power ≥ -40 dBm); digital protocol.
Modulation detection:	270 Hz, 1 kHz, 2 kHz (input power ≥ -40 dBm).
Reference power:	fully automatic; digital protocol.
Detector type:	InGaAs.
Measuring range:	-70 dBm – +10 dBm at 1550 nm.
Accuracy:	± 0.2 dB ± 1 nW (± 5 % ± 1 nW).
Resolution:	0.01 dB (-60 dBm – +10 dBm); 0.10 dB (-70 dBm – -60 dBm).
Linearity:	± 5 %.
Maximum distance:	up to 150 km (~90 mi);
Display:	LCD monochrome; backlight mode.
Interface type:	interchangeable; FC/PC; SC/PC.
Data Storage:	1,000 test records.
Data interface:	USB.
Storage temperature:	-20°C – +70°C (-4°F – +158°F).
Operating temperature:	-10°C – +50°C (14°F – +122°F).
Operating humidity:	≤ 90 % RH non-condensing.
Power supply:	rechargeable batteries: 2 × Ni-MH AA (2500 mA-h); non-rechargeable batteries: 2 × AA R6 1.5 V; low-battery indicator; auto power off.
Dimensions:	L: 160 mm W: 75 mm H: 45 mm; L: 6.3 in W: 3 in H: 1.8 in
Weight:	270 g (9.5 oz).

Coaxial Cable ► RG6

RG6 Standard Shield - CM CCS Conductor

Item #	Description
107-1235BK6S500	CCS Conductor, 500 ft Pull Box, Black
107-1236WH6S500	CCS Conductor, 500 ft Pull Box, White
107-1234BK6S1BX	CCS Conductor, 1000 ft Pull Box, Black
107-1237WH6S1BX	CCS Conductor, 1000 ft Pull Box, White
107-1956BK6SR	CCS Conductor, 1000 ft Pull Box, Black
107-1957WH6SR	CCS Conductor, 1000 ft Pull Box, White
107-1234BK6S1RB	CCS Conductor, 1000 ft, Reel-in-Box , Black
107-1237WH6S1RB	CCS Conductor, 1000 ft, Reel-in-Box , White

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV and Digital Satellite Installations
- 18 AWG Solid Copper-Clad Steel Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Fully Sweep Tested to 3.0 GHz
- CM, CATV, CL2
- ETL-listed, RoHS Compliant

RG6 Standard Shield - CM Bare Copper Conductor

Item #	Description
107-2311/BK	Solid Bare Copper Conductor, 1000 ft, Pull Box, Black
107-2311/BK/RB	Solid Bare Copper Conductor, 1000 ft, Reel in Box, Black
107-2312/WH	Solid Bare Copper Conductor, 1000 ft, Pull Box, White

Features:

- High-Grade RG6 Coaxial Cable Suitable for Digital HDTV Applications, CATV and Digital Satellite Installations
- 18 AWG Solid Bare Copper Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Fully Sweep Tested to 3.0 GHz
- CM, CATV, CL2
- ETL-listed, RoHS Compliant

Coaxial Cable ▶ RG6

RG6 Quad Shield - CM CCS Conductor

RG6, CCS Conductor

Quad Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid, 18 AWG, 75 OHM

Features:

- High-Grade RG6 Quad Shield
- Suitable for Digital HDTV applications, CATV, TV antenna and Satellite TV
- 18 AWG Copper Clad Steel Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- Sweep Tested to 3.0 GHz
- CM, CL2 Rated
- ETL-listed, RoHS Compliant, ISO 001:2008ISO

Item #	Description
107-1954BK6Q500	500 ft Pull Box, Black
107-1955WH6Q500	500 ft Pull Box, White
107-1952BK6Q1BX	1000 ft Pull Box, Black
107-1953WH6Q1BX	1000 ft Pull Box, White

RG6 Quad Shield - CM Bare Copper Conductor

Quad Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid, 18 AWG, 75 OHM

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV and Digital Satellite Installations
- 18 AWG Solid Bare Copper Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- Fully Sweep Tested to 3.0 GHz
- CM, CATV, CL2
- ETL-listed, RoHS Compliant

Item #	Description
107-2326/5BK	Solid Bare Copper Conductor, 500 ft, Pull Box, Black
107-2327/5WH	Solid Bare Copper Conductor, 500 ft, Pull Box, White
107-2309/BK	Solid Bare Copper Conductor, 1000 ft, Pull Box, Black
107-2310/WH	Solid Bare Copper Conductor, 1000 ft, Pull Box, White

Coaxial Cable ▶ RG6

RG6 CMP Plenum - Standard Shield CCS

RG6, CMP, CCS Conductor

Dual Shield: Aluminum Foil 60% Aluminum Braid, 18 AWG, 75 OHM

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV
- 18 AWG Solid CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- CMP-Rated (Plenum)
- UL-listed, RoHS Compliant
- 1000 ft Wooden Spool

Item #	Description
107-2316/P/BK	1000 ft Spool, Black
107-2316/P/WH	1000 ft Spool, White

RG6 CMP Plenum - Quad Shield CCS

RG6, CMP, CCS Conductor

Quad Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid, 18 AWG, 75 OHM

Features:

- High-Grade RG6 Coaxial Cable
- Suitable for Digital HDTV Applications, CATV
- 18 AWG Solid CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- CMP-Rated
- UL-listed, RoHS Compliant
- 1000 ft Wooden Spool

Item #	Description
107-2315/P/BK	1000 ft Spool, Black
107-2315/P/WH	1000 ft Spool, White

RG6 Standard Shield - Dual Cable Siamese CCS

Features:

- High-Grade Dual RG6
- 18 AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Dual Coaxial Cable
- Swept Tested to 3.0 GHz
- 75 Ohm Impedance
- PVC Jacket
- ETL-listed, RoHS Compliant

Item #	Description
107-2320/6DSBX	Dual RG6, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, 18 AWG, 3.0 GHz, 500 ft, Pull Box, Black

RG6 Standard Shield CCS With Messenger

Features:

- High-Grade RG6 Coaxial Cable with Messenger (Aerial Installations)
- 18 AWG CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- 75 Ohm Impedance
- PVC Jacket, CM Rated
- ETL-listed, RoHS Compliant

Item #	Description
107-1233BK/MESG	RG6, with messenger, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, 18 AWG, 1000 ft Spool, Black

Coaxial Cable

RG6

RG6 Standard Shield CCS Conductor - Direct Burial

- Features:
- High-Grade RG6 Direct Burial
 - 18 AWG CCS Conductor
 - Shield: Aluminum Foil, 60% Aluminum Braid
 - 75 Ohm Impedance
 - Polyethylene (PE) Jacket
 - Direct Burial (Gel Filled)
 - ETL-Verified, RoHS Compliant
 - 1000 ft Wooden Spool

Item #	Description
107-1234/DB/6S	RG6, Direct Burial, CCS Conductor, Dual Shield: Aluminum Foil, 60% Aluminum Braid, Gel Filling, 18 AWG, 3.0 GHz, 1000 ft Spool, Black

RG6 Quad Shield CCS Conductor - Direct Burial

- Features:
- High-Grade RG6 Quad Shield Direct Burial
 - 18 AWG CCS Conductor
 - Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
 - 75 Ohm Impedance
 - Polyethylene Jacket (PE)
 - Direct Burial (Gel-Coated)
 - ETL-Verified, RoHS Compliant
 - 1000 ft Spool

Item #	Description
107-1952/DB/6Q	RG6, Direct Burial, CCS Conductor, Quad Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid, Gel-Coated, 18 AWG, 3.0 GHz, 1000 ft Spool, Black

MULTIMEDIA SYSTEMS

Coaxial Cable ► RG59

RG59 Plenum, 95% CCA Braid - Bare Copper Conductor

Item #	Description
107-2318/P/WH	RG59, CMP, Bare Copper Conductor, Shield: 95% CCA Braid, 20 AWG, 1000 ft Spool, White
107-2318/P/BK	RG59, CMP, Bare Copper Conductor, Shield: 95% CCA Braid, 20 AWG, 1000 ft Spool, Black

Features:

- 20 AWG Solid Bare Copper Conductor for Optimal Signal Transmission
- 95% CCA Braid coverage for optimum signal protection
- Plenum-Rated Jacket
- UL-Listed, RoHS Compliant
- 1000 ft Spool

RG59 Siamese Plenum 95% CCA Braid - Bare Copper Conductor with 18/2 Power Cable

Item #	Description
107-2319/P/BK	RG59 Siamese + 18 AWG Power Cables, CMP, Bare Copper Conductor, Shield: 95% CCA Braid, 20 AWG, 1000 ft Spool, Black
107-2319/P/WH	RG59 Siamese + 18 AWG Power Cables, CMP, Bare Copper Conductor, Shield: 95% CCA Braid, 20 AWG, 1000 ft Spool, White

Features:

- Siamese RG59 Coaxial Cable with 18 AWG Stranded Power Cables
- 20 AWG Solid Bare Copper Conductor for optimal signal transmission
- 95% CCA Braid for signal protection
- Indoor Cable Application for: CCTV
- UL-listed, RoHS Compliant, ISO 9001:2008
- 1000 ft Wooden Spool

Compression/Crimping Tool
078-1018

Universal Stripping Tool
078-1022

Cable Cutter (Up to 0.42/10.7mm)
078-1024

RG59 Siamese Cable 85% CCA Braid with 18/2 Power Cable

RG59 Siamese + 18 AWG Power Cables, **CCS Conductor**, Shield: 85% CCA Braid, 20 AWG

Item #	Description
107-2321/BK	1000 ft, Spool, Black
107-2322/WH	1000 ft, Spool, White
107-2323/BK	500 ft, Pull Box, Black
107-2324/WH	500 ft, Pull Box, White

Features:

- Siamese RG59 Coaxial Cable with 18 AWG Stranded Power Cables
- Coaxial Cable for CCTV Transmissions
- 20 AWG CCS Conductor
- 85% CCA Braid Coverage For Signal Protection
- CM Rated Jacket, CL2 Rated Cable
- ETL-Verified, RoHS Compliant, ISO 9001:2008
- Available in 1000 ft Reel in Box and 500 ft Pull Box

Coaxial Cable ▶ RG59 Siamese

RG59 Siamese Cable 95% CCA Braid

Item #	Description
107-2179/BK	RG59 Siamese, + 18 AWG Power Cables, Bare Copper Conductor, Shield: 95% CCA Braid, 20 AWG, 1000 ft Spool, Black

- Features:
- Siamese RG59 Coaxial Cable with 18 AWG Stranded Power Cables
 - 20 AWG Solid Bare Copper Conductor
 - 95% CCA Braid for signal protection
 - Indoor Cable Application for: CCTV
 - ETL-listed, RoHS Compliant, ISO 9001:2008
 - Available in a 1000 ft or 500 ft Reel-in-box
 - CM Rated Jacket

RG59 Siamese, Direct Burial, 95% CCA Braid

Bare Copper Conductor

Check availability

Item #	Description
107-2179/DB/BK	RG59 Siamese Direct Burial, + 18 AWG Power Cbles, Bare Copper Conductor, Shield: 95% CCA Braid, Gel-Coated, 20 AWG, CL2, Ploythylene Jacket, 1000 ft Spool, Black

- Features:
- Siamese RG59 Coaxial Cable with 18 AWG Stranded Power Cables
 - 20 AWG Solid BC Conductor
 - 95% CCA Braid for signal protection
 - Direct Burial (Gel-Coated)
 - Polyethylene Jacket (PE)
 - 75 Ohm Impedance
 - ETL-Verified, RoHS Compliant, ISO 9001:2008
 - 1000 ft Wooden Spool

Coaxial Cable ▶ RG11

RG11 Standard Shield - CCS Conductor

Features:

- High-Grade RG11 Standard Shield
- 14 AWG CCS Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- 75 Ohm Impedance
- PVC Jacket, CL2 Rated
- ETL-listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000 ft Spool

Item #	Description
107-1032BK/R11	RG11, CCS Conductor, Shield: Aluminum Foil, 60% Aluminum Braid, 14 AWG, CL2 Rated, 1000 ft Spool, Black

RG11 Quad Shield - CCS Conductor

Features:

- High-Grade RG11 Quad Shield
- 14 AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- 75 Ohm Impedance
- Meets NEC Article 820 V Rating
- ETL-listed, RoHS Compliant, ISO 9001:2008
- Supplied in 1000 ft Spool

Item #	Description
107-1032BK/R11Q	RG11, CCS Conductor, Quad Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid, 14 AWG, CL2, CM, PVC Jacket, 1000 ft Spool, Black

We added an extra layer of wrapping to protect your cable from damaging during shipping.

Coaxial Cable ► RG11

RG11 Standard Shield CCS Direct Burial

Features:

- High-Grade RG11 Direct Burial
- 14 AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid
- Direct Burial Gel Filled
- 75 Ohm Impedance
- ETL-Verified, RoHS Compliant, ISO 9001:2008
- Supplied in 1000 ft Spool

Item

107-1032/DB/R11

Description

RG11 Direct Burial, CCS Conductor, Dual Shield: Aluminum Foil, 60% Braid, Gel Filled, 14 AWG, CL2, PE Jacket, 1000 ft Spool, Black

RG11 Quad Shield CCS Direct Burial

Features:

- High-Grade RG11 Direct Burial
- 14 AWG CCS Solid Conductor
- Shield: Aluminum Foil, 60% Aluminum Braid, Aluminum Foil, 40% Aluminum Braid
- Direct Burial Gel Filled
- 75 Ohm Impedance
- ETL-Verified, RoHS Compliant, ISO 9001:2008

Item

107-1032/DB/R11Q

Description

RG11 Direct Burial, CCS Conductor, Quad Shield: Aluminum Foil, 60% Braid, Aluminum Foil, 40% Aluminum Braid, Gel Filled, 14 AWG, PE Jacket, 1000 ft Spool, Black

078-1019
Terminates RG11

083-1044/CPRG11
Compression Type Connector for RG11

078-1256
Coaxial Stripper

Coax Connectors

RG6 STANDARD SHIELD

083-1041/CP/S

083-1041/S

083-1041/PCP/S

RG6 QUAD SHIELD

083-1042/CP/Q

083-1042/Q

083-1042/PCP/Q

ADD-ON TOOLS

078-1018
Terminates RCA, BNC, RG59, RG6

078-2156
Coaxial Stripper

078-1024
Cuts wire up to 0.42-10.7mm

078-1019
Terminates RG11

RG59

083-1040/CR/B

After crimping

083-1045/PCPBNC

083-1043/CP/BNC

RG11

083-1044/CPRG11

Features:

- Compression, crimping or twist-on types available
- Crimping and Compression types work great with Vertical Cable Crimping and Compression Tools
- Twist-on type requires no tool

Item #

Description

RG6

083-1041/CP/S	F-Type Male Connector, Compression Type for RG6, Standard Shielded, 50 per bag
083-1042/CP/Q	F-Type Male Connector, Compression Type, for RG6 Quad Shielded, 100 per bag
083-1041/S	F-Type Male Connector, Twist-On Type, for RG6 Standard Shielded, 100 per bag
083-1042/Q	F-Type Male Connector, Twist-On Type, for RG6 Quad Shielded, 100 per bag
083-1041/PCP/S	Plenum F-Type Connector for Standard Shield RG6 Plenum Coax Cable, 25 per pack
083-1042/PCP/Q	Plenum F-Type Connector for Quad Shield RG6 Plenum Cable, 25 per pack

SOLD INDIVIDUALLY

RG59

083-1040/CR/B	BNC Crimping Type Connector for RG59, 100 per bag
083-1045/PCPBNC	BNC Connector Compression Type for RG59 Plenum Coax Cable, 25 per pack
083-1043/CP/BNC	BNC Compression Type Connector for RG59, 100 per bag

RG11

083-1044/CPRG11	Compression Type Connector for RG11 Dual and Quad Shield, 50 per bag

HDMI Digital Cables & Accessories

Premium HDMI High Speed Digital Cables with Ethernet

Item #	Description
242-030/3FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 3 FT
242-032/6 FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 6 FT
242-034/10FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 10 FT
242-037/15FT	High-Speed HDMI Cable CL3-Rated (In-Wall) - NEW
242-038/25FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 25 FT
242-040/30FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 30 FT
242-042/50FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 50 FT
242-043/75FT	HDMI 2.0 Ultra HD 4Kx2K 60HZ / 3D, Gold-Plated 75 FT (Directional)
242-044/100FT	HDMI 2.0 with Amplifier, Ultra HD 4Kx2K 60HZ / 3D, 100 FT (Directional)

- Features:
- High-speed HDMI Cable (100FT with Amplifier)
 - Gold-Plated Contacts, Type-A 19pin
 - 18 Gbps – Ultra HD 2160p
 - 2K/4K – 60 Hz, 120 Hz, 240 Hz, 360 Hz
 - HDR, HEC, ARC, 3D, HDCP Compliant
 - UL-listed RoHS Compliant
 - Directional – Input / Output (75FT & 100FT)
 - CL3 Rated for In-wall installations (for 25, 30, 50, 75 and 100 FT only)

AUDIO CABLE

Features:

- Conductors: Oxygen-Free Stranded Bare Copper
- Stranded Conductors Provide Additional Flexibility
- Insulation Material: PVC
- Flame Retardant Test: CMR CL3
- ETL-listed, RoHS Compliant
- Available in a Wooden Spool or Pull Box

Direct Burial Features:

- Durable Weather Resistant Jacket
- High-Strand Oxygen Free Bare Copper Conductors
- Suitable for Direct Burial
- UV Rated Outer Jacket
- Water Block Tape

Check availability: 209-2335/5WH (10 AWG, 2 Conductor, Stranded (105 Strand), PVC Jacket, 500 ft, Spool, White)

Wire thickness is identified by its American Wire Gauge (AWG) number. The lower the gauge number, the thicker the wire. Thicker wire presents less resistance to current flow. Thick wire (12 or 14 gauge) is recommended for long wire runs, high power applications, and low-impedance speakers (4 or 6 ohms). For shorter runs (less than 50 feet) to 8 ohm speakers, 16 gauge wire will usually work fine. It's cost-effective and easy to work with.

Representation of different conductor sizes,
10 AWG - 28 AWG (not an actual size)

Bundled Cable: 2xRG6 Quad Shield CCS with 2xCAT5E

Features:

- CMR-Rated
- ETL-Verified, RoHS Compliant
- Supplied in 500 ft Spool

CAT5E UTP Cable

- High-Performance Data Cable
- 350 MHz Bandwidth for Data Applications
- 24 AWG Solid Bare Copper Conductors
- ANSI/TIA 568C.2, ISO/IEC-11801

RG6 Coaxial Cable

- High-Grade RG6 Quad Shield
- Suitable for Digital HDTV, CATV

Item #	Description
294-2170	2 x RG6 (CCS) Quad Shield with 2 x CAT5E, 350 MHz, 24 AWG, UTP, Solid, PVC Jacket, 500 ft, Wooden Spool, Blue

Bundled Cable: 2x RG6 Quad Shield CCS with 2x CAT6

Features:

- CMR-Rated
- ETL-Verified, RoHS Compliant
- 500 ft Wooden Spool

CAT6 UTP Cable

- High-Performance Data Cable
- 550 MHz Bandwidth for Data Applications
- 23 AWG Solid Bare Copper Conductors
- ANSI/TIA 568C.2, ISO/IEC-11801

RG6 Coaxial Cable

- High-Grade RG6 Quad Shield
- Suitable for Digital HDTV, CATV

Item #	Description
294-2171	2 x RG6 (CCS) Quad Shield with 2 x CAT6 550 MHz 23 AWG (UTP) White

Bundled Cable

► RG6 + CAT5E

Bundled Cable: RG6 Quad Shield CCS with CAT5E

Features:

- **CAT5E Unshielded Twisted Pair (UTP) Cable**
- High-Performance CAT5E Data Communications Cable
- Designed for Indoor Installations, CMR-Rated Jacket
- 4-Pair – Easily Identified Color-Striped Pairs
- 24 AWG Solid Bare Copper Conductors
- Exceeds ANSI/TIA 568C.2, ISO/IEC 11801 specifications
- **High-Grade RG6 Quad Shield Coaxial Cable**
- 18 AWG Solid Copper-Clad Steel
- 500 ft Wooden Spool
- ETL, RoHS Compliant

Item

294-2172

Description

1 x RG6 (CCS) Quad Shield with 1 x CAT5E, 350 MHz, 24 AWG, UTP, Solid, PVC Jacket, 500 ft Wooden Spool, White

Bundled Cable: CAT5E with 16/4 Audio (CMR)

Features:

- **CAT5E Unshielded Twisted Pair (UTP) Cable**
- High-Performance CAT5E Data Communications Cable
- Suitable for 350 MHz High-Speed Data Applications, Gigabit Ethernet, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Designed for Indoor Installations, CMR-Rated Jacket
- 4-Pair – Easily Identified Color-Striped Pairs
- **16 AWG 4 Conductor Speaker Cable**
- ETL-listed, RoHS Compliant
- Supplied in 500 ft Wooden Spool

Item

294-2173

Description

Bundled Cable, 1 x 350 MHz CAT5E (UTP) with 4C x 16 AWG, PVC Jacket, 500 ft, Wooden Spool, White

Bundled Cable: 2x RG6 Quad Shield CCS, 2x CAT5E, 2x Multi-Fiber

Features:

- **CAT5E Unshielded Twisted Pair (UTP) Cable**
- High-Performance CAT5E Data Communications Cable
- Suitable for 350 MHz High-Speed Data Applications,
- Gigabit Ethernet, Fast Ethernet and 155Mbps TP-PMD/CDDI
- Designed for Indoor Installations, (CMR) Riser
- 4-Pair – Easily Identified Color-Striped Pairs
- Exceeds ANSI/TIA 568C.2, ISO/IEC 11801 specifications
- 24 AWG Solid Bare Copper Conductors
- **High-Grade RG6 Quad Shield Coaxial Cable**
- Suitable for Digital HDTV Applications, CATV, Outdoor TV Antennas and Digital Satellite Installations
- 18 AWG Solid Copper-Clad Steel
- Sweep-Tested to 3.0 GHz
- **Multimode Fiber (2 Cores)**
- ETL-listed, RoHS Compliant
- 500 ft Wooden Spool

Item

Description

294-2174

Bundled Cable, 2 x RG6 (CCS) Quad Shield with 2 x 350 MHz CAT5E (UTP) 2X Multi-Fiber, 500 ft Wooden Spool, White

Bundled Cable: 2x RG6 Standard Shield CCS with 2x CAT5E

Features:

- **CAT5E Unshielded Twisted Pair (UTP) Cable**
- High-Performance CAT5E Data Communications Cable
- Suitable for 350 MHz High-Speed Data Applications,
- Gigabit Ethernet, Fast Ethernet and 155Mbps TP-PMD/CDDI

The background is a solid red color with a faint, semi-transparent image of a security keypad and other hardware components. The keypad is a large, rectangular device with a grid of buttons. To its right is a smaller, square device with a single red button. Below the keypad is a small, rectangular device with four buttons, each featuring a different icon: a padlock, an open padlock, an asterisk, and a house. The overall aesthetic is clean and modern, with a focus on security technology.

315-162/R/BL	16/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, BL
315-162/R/RD	16/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red
315-162/R/YL	16/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, YL
315-164/R/RD	16/4 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red
315-182/R/BL	18/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Blue
315-182/R/RD	18/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red
315-182/R/YL	18/2 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Yellow
315-184/R/RD	18/4 Alarm Cable, FPLR, Unshielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red

SHIELDED

Item #	Description
315-164/S/R/RD	16/4 Alarm Cable, FPLR, Shielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red
315-182/S/R/BL	18/2 Alarm Cable, FPLR, Shielded, Solid Bare Copper Conductors, 1000 ft, Spool, Blue
315-182/S/R/GR	18/2 Alarm Cable, FPLR, Shielded, Solid Bare Copper Conductors, 1000 ft, Spool, Green
315-182/S/R/RD	18/2 Alarm Cable, FPLR, Shielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red
315-184/S/R/RD	18/4 Alarm Cable, FPLR, Shielded, Solid Bare Copper Conductors, 1000 ft, Spool, Red

Features:

- FPLR Fire Alarm Cable
- Riser-Rated
- Fire protective signal circuit
- Solid Bare Copper Conductors
- ETL-listed, RoHS Compliant
- Made in USA

Applications: Smoke alarms and detectors, pull boxes, burglar alarms, addressable fire alarm systems

Fire Alarm Cable

FPLP, PLENUM-RATED

Secure Smarter with Vertical Cable

SOLID CONDUCTORS

Unshielded

Shielded

Features:

- Conductor: Stranded Bare Copper and Solid Bare Copper
- Stranded Conductors Provide Additional Flexibility
- Insulation Material: PVC
- Jacket: PVC
- Sequential Length Markings on Jacket
- 500 ft or 1000 ft (Pull Box, Spool or Coil Pack)
- ETL-listed, RoHS Compliant

Applications:

- Indoor Remote Control of Security
- Intercom Systems
- Sound / Audio Systems
- Door Controllers, Prox Sensors, Key Pads, Access Control, Smoke Detectors
- Indoor Applications

Security and Communication Cable ▶ Access Control Cable

22/3 Pair (Shielded) + 18/4 + 22/4 + 22/2
Available in CMR & CMP

RISER

PLENUM

Item #	Description
214-2325/GR	22/3P Shielded + 18/4 + 22/4 + 22/2 Lighting Control Cable Riser-Rated, 500 ft, Green
214-2329/P/YL	22/3P Shielded + 18/4 + 22/4 + 22/2 Lighting Control Cable Plenum-Rated , 500 ft, Yellow

Features:

- 4 Component Lighting Control Cable
- Each component contains a rip cord
- Overall PVC Riser-Rated Jacket
- ETL-listed, RoHS Compliant
- 500 ft Spool

Contains: 22 AWG/3 Pair Shielded
 18 AWG / 4 Conductor,
 22 AWG / 4 Conductor,
 22 AWG / 2 Conductor

Applications Include:
 Access Control Panels, Security Panels, Card Readers, Sensors, Keypads,
 Power, Microphones, Speakers, Alarm Systems

Door Contact

Electric Strike

Reader

Exit button

Structure of a Typical Access Control Cable:
 Reader Cables (Barcode, Magnetic Strip) – 22AWG / 3 or 6 Pairs
 Lock Power Cables – 18AWG / 4 Pairs
 Request to Exit Cables – 22AWG / 4 Pairs
 Door Contact Cables – 22AWG / 2 Pairs

Security and Communication Cable ▶ Control Cable

Control Cable: 22/2 (Shielded) + 18/2, CL3 Rated
Available in CMR & CMP

RISER

PLENUM

Features:

- Control Cable
- Overall PVC Riser-Rated Jacket
- ETL-listed, RoHS Compliant
- 1000 ft Spool

Applications:

Touch Panels, Key Pads, Expansion Modules, Tuners, Power Limited Control Circuits, Access Control Panels, Security Panels, Card Readers, Sensors, Keypads, Power, Microphones, Speakers, Alarm Systems

Item #	Description
214-2321/TL	22/2 Shielded + 18/2 Stranded Bare Copper Conductors, Riser, 1000 ft, Wooden Spool, Teal with Yellow Stripe
214-2324/P/TL	22/2 Shielded + 18/2 Stranded Bare Copper Conductors, Plenum, 1000 ft, Wooden Spool, Teal with Yellow Stripe

Control Cable: 22/2 (Shielded) + 16/2, CL3 Rated.

Features:

- High Grade Lighting Control System Cable
- In-home, commercial, and industrial lighting applications
- Used in conjunction with security & sensor systems
- Indoor Applications
- Riser-Rated for Indoor Use
- Light Dimmers, environmental sensors, smart eco-friendly lighting control
- ETL-listed, RoHS Compliant
- 1000 ft Spool

Item #	Description
214-2323/WH	22/2 Shielded + 16/2 Stranded Bare Copper Conductors, Riser-Rated 1000 ft, Wooden Spool, White

APPLICATIONS: High Grade Lighting Control System Cable In-home, commercial, and industrial lighting applications. Used in conjunction with security & sensor systems Indoor Applications, Light Dimmers, environmental sensors, smart eco-friendly lighting control

Features:

- Tamper resistant, the cover's self-locking, hidden positive latch permits quick re-entry as well as providing a secure installation of premise wire.
- Manufactured of UL 94 V-0 rated PVC material
- Fittings incorporate a minimum 1 in bend radius per ANSI/TIA-568.0 and ANSI/TIA-569.
- Rubber-based foam tape adhesive with high ultimate bond strength conforms to any surface.
- Flexible hinge allows the raceway to endure numerous openings without creating discoloration or stress cracking.
- Junction boxes can be used with this raceway for electrical or data outlets
- Measuring 6 FT in length
- UL-listed

Accessories:

- Offers same features as raceways
- Available in both Ivory and Office White
- Conform to the TIA cabling standards specifications
- Various sections available
- UL-listed

Cutters & Strippers

Item #	Description
078-1022	Universal Cable Stripper for RG59, RG6, RG11, Flat Telephone Wire
078-1023	Miniature 5 Adjustable Stripper/Cutter/Punch Down Tool, 10-30 AWG Wire, UTP/STP Round Cable
078-1024	Cable Cutter, Cuts Wire up to 0.42/10.7mm
078-1256	Coaxial Stripper, Thumbwind-Style, Adjustable Blade, For RG59 & RG6

"THE MOST-WANTED TOOL" in the Industry I-Punch Tool by Vertical Cable

"MOST-WANTED TOOL IN THE INDUSTRY"

TRY OUR FAMOUS I-PUNCH TOOL

PART NUMBER 078-2150

CABLING SUPPORT INFRASTRUCTURE

"One of the most significant changes was our move from Leviton to Vertical Cable for keystone jacks, patch cables, patch panels, etc."

"The @verticalcable crimping tool and V-Max series keystones are incredible and a massive time saver."

00:00:18 SEC

TO TERMINATE A KEYSTONE JACK

WITH I-PUNCH TOOL BY VERTICAL CABLE

 igotsecurity What a difference having the right tool makes. After routinely using my #southwire punchdown tool to terminate all keystone jacks... I decided to jump into trying the i-punch tool by @verticalcable. Don't get me wrong, using a punchdown tool is not bad... BUT when you need to terminate 40+ keystone jacks it takes time...

All I can say is what a time saver this tool is. This tool is light, easy to use and terminates and cuts the excess wires very neatly.

Special shoutout to @allgreenlightsllc for exposing me and the community to some of the tools of the trade. I

 allgreenlightsllc At the job I just wrapped up, I had an interesting conversation with a 20yr telco tech. We were talking shop and technique and he asked me for my jack/rapid from @fluke_networks. I said, "I don't have one." He says, "please tell me you aren't a dinosaur who punches each conductor individually." I said, "nope, I switched from @leviton keystones to V-Max keystones and the I-Punch tool from @verticalcable." He paused for a minute and said, "wait, you switched from Leviton to Vertical Cable?" I said, "that's exactly what I did" and threw him a spare I-Punch tool.

He held it for a minute and said:

Compliance:	IEC 60529; UL 1863.
Cable gland IP rating:	IP68.
Cable gland cable size:	5 mm–10 mm O.D. round twisted-pair cables; 2 mm–3 mm O.D. round optical fiber cables; 2 mm–3 mm O.D. optical fiber zipcords.
Dimensions:	122 mm × 120 mm × 80 mm (4.8 in × 4.7 in × 3.2 in) without outlets and glands.

RUGGEDIZED PRODUCTS ► Ruggedized Field-Terminatable Plugs

Category 6A and 8 Ruggedized Field-Terminatable Plugs

252-RMP02-A2A10	Modular Plug, 8P8C, CAT6A, STP, Ruggedized, Field-Terminatable, Pack of 10
252-RMP02-A2B10	Modular Plug, 8P8C, CAT6A, STP, Ruggedized, Field-Terminatable, Slim-Profile, Pack of 10
252-RMP02-A2C10	Modular Plug, 8P8C, CAT6A, STP, Ruggedized, Field-Terminatable, 90-Deg Variable Direction, Pack of 10
252-RMP02-B2A10	Modular Plug, 8P8C, CAT8.I, STP, Ruggedized, Field-Terminatable, Pack of 10

252-RMP02-A2A

252-RMP02-A2B

252-RMP02-A2C

252-RMP02-B2A

CHARACTERISTICS

252-RMP02-A2A Transmission performance: category 6A. Wiring schemes: T568A/T568B. Conductor gauge: solid: 22–26 AWG. Cable diameter: 5–9 mm. Termination: “toolless”. Re-termination limit: 5 times. Housing/screening: solid zinc alloy, “360°” coverage. Contacts: phosphor bronze, 50-µin gold plating Mating durability: Level 1, 750 mating cycles min. Current rating: 1.5 A. Dielectric withstanding voltage: 1000 V_{DC}. Insulation resistance: 500 MOhm min. Contact resistance: 20 MOhm max. Environmental protection: IP20. Dimensions: 45 mm × 14 mm × 13.5 mm; (1.8 in × 0.6 in × 0.5 in). Compliance: IEC 60603-7; UL DUXR; IEEE 802.3bt (4PPoE).	252-RMP02-A2B Transmission performance: category 6A. Wiring schemes: T568A/T568B. Conductor gauge: solid: 22–26 AWG; stranded: 22–27 AWG. Cable diameter: 5–9 mm. Termination: “toolless”. Re-termination limit: 5 times. Housing/screening: solid zinc alloy, “360°” coverage. Contacts: phosphor bronze, 50-µin gold plating Mating durability: Level 1, 750 mating cycles min. Current rating: 1.5 A. Dielectric withstanding voltage: 1000 V_{DC}. Insulation resistance: 500 MOhm min. Contact resistance: 20 MOhm max. Environmental protection: IP20. Dimensions: 48 mm × 12 mm × 12.6 mm; (1.9 in × 0.5 in × 0.5 in). Compliance: IEC 60603-7; UL DUXR; IEEE 802.3bt (4PPoE).
252-RMP02-A2C Transmission performance: category 6A. Wiring schemes: T568A/T568B. Conductor gauge: solid: 22–26 AWG; stranded: 22–27 AWG. Cable diameter: 5.5–9 mm. Termination: “toolless”. Re-termination limit: 5 times. Housing/screening: solid zinc alloy, “360°” coverage. Contacts: phosphor bronze, 50-µin gold plating Mating durability: Level 1, 750 mating cycles min. Current rating: 1.5 A. Dielectric withstanding voltage: 1000 V_{DC}. Insulation resistance: 500 MOhm min. Contact resistance: 20 MOhm max. Cable entry direction: 90 ° to plug; eight 45° variable positions relative to plug plane. Environmental protection: IP20. Dimensions: 48 mm × 11.7 mm × 11.7 mm; (1.90 in × 0.45 in × 0.45 in). Compliance: IEC 60603-7; UL DUXR; IEEE 802.3bt (4PPoE).	252-RMP02-B2A Transmission performance: category 8 Class I. Wiring schemes: T568A/T568B. Conductor gauge: solid: 22–26 AWG; stranded: 27 AWG. Cable diameter: 6.0–8.5 mm. Termination: “toolless”. Re-termination limit: 5 times. Housing/screening: solid zinc alloy, “360°” coverage. Contacts: phosphor bronze, 50-µin gold plating Mating durability: Level 1, 750 mating cycles min. Current rating: 1.5 A. Dielectric withstanding voltage: 1000 V_{DC}. Insulation resistance: 500 MOhm min. Contact resistance: 20 MOhm max. Cable entry direction: 90 ° to plug; eight 45° variable positions relative to plug plane. Environmental protection: IP20. Dimensions: 60 mm × 14.0 mm × 15.2 mm; (2.36 in × 0.55 in × 0.60 in). Compliance: IEC 60603-7; UL DUXR; IEEE 802.3bt (4PPoE).

DIN-RAIL PRODUCTS ► DIN-Rail Keystone Module Holders

Stackable Holders

251-DKH01-A1

DIN-Rail Keystone Module Holder, 35-mm, Plastic, Stackable, Grounding, Labeling, One Left Cover, Blank

CHARACTERISTICS

Compatibility:	all Vertical Cable's high-density keystone modules.
Compliance:	IEC/EN 60715; DIN 43880.
Mounting:	35-mm DIN rail; integral spring-loaded contact; horizontally stackable (one right cover at the end of the row).
Bonding/grounding:	integral spring clip.
Labeling:	paper insert with clear window.
Material:	(PC) polycarbonate.
Dimensions:	width: 18 mm (0.7 in) [1 DU] without covers; height: 60 mm (2.4 in); depth: 60 mm (2.4 in).

ACCESSORIES

251-DKH01-A1-A	Left Cover for 251-DKH01-A1
251-DKH01-A1-B	Right Cover for 251-DKH01-A1

DIN-RAIL PRODUCTS ► DIN-rail Keystone Modules

Twisted-Pair Feed-Through Adapter

251-DCM01-A1B

DIN-Rail Feed-Through Adapter, CAT6a, STP, 35-mm, Grounding

CHARACTERISTICS

Connector:	feed-through adapter (socket-to-socket); 8P8C; T568A/T568B.
Transmission performance:	CAT6a per ANSI/TIA-568.2-D; CAT6a per ISO/IEC 11801.
Screening:	solid zinc alloy, "360-deg" coverage.
Bonding/grounding:	integral spring clip.
Material:	(PC) polycarbonate.
Mounting:	35-mm DIN rail; integral clip; side-by-side stackable.
Mating durability:	Level 1, 750 mating cycles min
Environmental protection:	IP20; dust covers.
Compliance:	IEC/EN 60715; DIN 43880; IEEE 802.3bt (4PPoE).
Dimensions:	width: 18 mm (0.7 in) [1 DU]; height: 35 mm (1.4 in); depth: 26 mm (1.0 in).

DIN-RAIL PRODUCTS ▶ DIN-rail Keystone Module Box

Distribution Box

251-DCN01-A8A DIN-Rail Keystone Module Box, 35-mm, 8-position, Grounding, Swingable

CHARACTERISTICS

- Compatibility: all Vertical Cable's high-density keystone modules.
- Compliance: IEC/EN 60715.
- Mounting: 35-mm DIN rail;
integral latching contacts;
surface-mount option.
- Module tilt range: ±20 °.
- Capacity: eight positions.
- Bonding/grounding: internal spring contacts;
external grounding conductor (length: 42 cm (16.5 in).
- Labeling: port numbers (1 to 8), factory-marked;
adhesive paper labels, custom labeling.
- Dimensions: width: 55 mm (2.2 in) [3 DU];
 height: 153 mm (6 in) without latching clip;
 depth: 75 mm (3 in).

DIN-RAIL PRODUCTS ► DIN-Rail Modular Cassettes

EZ Mount Series Cassette

268-EZM01-1A

DIN-Rail Modular Cassette, EZ Mount Series

EZ Mount Cassette

P72

DIN-Rail Connectivity Node

251-DCN01-B1B0

DIN-Rail Connectivity Node with Surface-Mount Option

251-DCN01-B1B1

DIN-Rail Connectivity Node with DIN-Rail-Mount Option
(Comes with DIN-Rail Clip × 1)

Kit includes:

Base × 1; Cover × 1; FM stage × 1;
Cable Tie × 2.

CHARACTERISTICS

Compatibility:	all Vertical Cable 264-MAP and 264-LAP series adapter plates.
Mounting:	left-hand/right-hand independent; surface, screw fastening; 35-mm DIN rail, detachable DIN-rail clip.
Materials:	aluminum alloy; black powder coating.
Capacity:	one LGX adapter plate; up to 24 fibers (264-LAP series adapter plates); up to 6 keystone modules (264-MAP01-1A06 adapter plate); 1 or 2 splice holders, 12 fibers per holder, 24 fibers total max; 1 or 2 cable entry point adapters (see accessories).
Cable management:	cable anchor point (bridge lance); fiber/splice management stage, removable; set of cable ties.
Dimensions:	W: 30 mm (1.2 in) [2 DU], H: 150 mm (5.9 in), D: 140 mm (5.5 in).
Weight:	240 g (8.5 oz).
Compliance:	IEC/EN 60715; DIN 43880; ANSI/TIA-568.3-D; GR-769; Directive 2011/65/EU Am. 2015/863/EU (RoHS2).
DIN-rail clip:	material: fiberglass-reinforced nylon 66 (PA66, GF: 30 %); width: 35 mm; mounting: spring-loaded latch; compliance: Directive 2011/65/EU Am. 2015/863/EU (RoHS2).
Environmental:	operating temperature: -10 °C–60 °C (14 °F–140 °F); storage temperature: -40 °C–70 °C (-40 °F–158 °F); operating humidity: 93 % RH max non-condensing.

264-LAP OF Adapter Plates

cable anchor point (bridge lance);
set of cable ties.

W: 225 mm (8.9 in), H: 135 mm (4.4 in), D: 32 mm (1.3 in).

Weight: 75 g (2.6 oz).

Directive 2011/65/EU Am. 2015/863/EU (RoHS2).

operating temperature: -10 °C–60 °C (14 °F–140 °F);

storage temperature: -40 °C–70 °C (-40 °F–158 °F);

operating humidity: 93 % RH max non-condensing.

DIN-RAIL PRODUCTS ► Equipment Mounting

DIN-Rail to Equipment-Rack Adapter Bracket

251-ERA01B-2I

DIN-Rail to Equipment Rack Adapter Bracket, Foldable, 2-RMU, 8-in Depth

AVAILABLE Q4 2021

CHARACTERISTICS

Form-factor:	19-in rack/cabinet mounting standard (EIA-ECA-310-E).
Capacity:	up to 22 DU (385 mm (15.2 in)).
Materials:	1.5-mm (16-GA) CRS; black powder coating.
Equipment mounting:	35-mm DIN rail; 11 depth positions; 25-mm (1-in) steps; +50 mm (2 in) to -200 mm (8 in).
Cable management:	detachable cable management bars, front and rear, two levels; detachable plastic cable management rings.
Bonding/grounding:	two grounding conductor terminals.
DIN rail:	35 mm; galvanized steel; 400-mm (16-in) wide (22 DU).
Compliance:	IEC/EN 60715; Directive 2011/65/EU Am. 2015/863/EU (RoHS2).
Dimensions:	width: 482.6 mm (19 in) flange-to-flange; 442 mm (17.4 in) frame; height: 88 mm (3.5 in) [2 RMU]; depth: 300 mm (12 in).
Dimensions, packed:	450 mm × 90 mm × 100 mm; (17.7 in × 3.5 in × 4 in).
Weight:	1.5 kg (3.3 lb).

ACCESSORIES

251-CMB012-A4	DIN-Rail to Equipment Rack Adapter Bracket, Cable Management Bar, General Purpose, 4-in Depth
251-CMB012-A6	DIN-Rail to Equipment Rack Adapter Bracket, Cable Management Bar, General Purpose, 6-in Depth
251-CMB012-A8	DIN-Rail to Equipment Rack Adapter Bracket, Cable Management Bar, General Purpose, 8-in Depth

CHARACTERISTICS

Materials:	1.5-mm (16-GA) CRS; black powder coating.
Width:	410 mm (16.2 in).
Height:	45 mm (1.75 in).
Depth:	251-CMB012-A4: 100 mm (4 in) panel-to-support; 150 mm (6 in) full; 251-CMB012-A6: 160 mm (6 in) panel-to-support; 200 mm (8 in) full; 251-CMB012-A8: 200 mm (8 in) panel-to-support; 250 mm (10 in) full.
Dimensions, packed:	445 mm × 45 mm × 25 mm; (17.5 in × 1.75 in × 1 in).
Weight:	1.5 kg (3.3 lb).

Field-Configurable Brackets

254-EMB01-B1B1	Surface-Mount Equipment Bracket, Field-Configurable, 19-in, 1-RMU
254-EMB01-B1B2	Surface-Mount Equipment Bracket, Field-Configurable, 19-in, 2-RMU
254-EMB01-B1B4	Surface-Mount Equipment Bracket, Field-Configurable, 19-in, 4-RMU

AVAILABLE Q3 2021

AVAILABLE Q4 2021

CHARACTERISTICS

Materials:	2-mm (14-GA) CRS; black powder coating.
Capacity:	254-EMB01-B1B1: 1 RMU; 254-EMB01-B1B2: 2 RMU; 254-EMB01-B1B4: 4 RMU; two mounting flange levels, 260 mm (10.2 in).
Equipment mounting:	eight depth levels, 1-in step; max equipment unit depth: 445 mm (17.5 in); M6 cage nuts/screws.
Width:	520 mm (20.5 in).
Height:	254-EMB01-B1B1: 60 mm (2.4 in); 254-EMB01-B1B2: 100 mm (4 in); 254-EMB01-B1B4: 190 mm (7.5 in).
Depth:	min: 300 mm (12 in); max: 470 mm (18.5 in).
Dimensions, packed:	530 mm × 60 mm × 35 mm; (21 in × 2.4 in × 1.4 in).
Weight:	254-EMB01-B1B1: 2 kg (4.4 lb); 254-EMB01-B1B2: 3 kg (6.6 lb); 254-EMB01-B1B4: 5 kg (11 lb).

Swingable at the base plane

Slides with two different ends:

1. "Blunt" end allows to fix the slide at 90 degrees to the base/wall plane.
2. "Fork" end allows slide to swing from 0 to 180 degrees.

Both options are independent and can be used in combination with other options.

90-degree swing angle

180-degree swing angle

Swingable at the equipment mounting plane

Arms with two different ends:

1. Integrated flange placed at a fixed 90-degree angle.
2. Hinge mechanism allowing to affix a swingable flange.

Both options are independent and can be used in combination with other options.

Fixed 90-degree flange

Swingable 120-degree flange

Two flange depth levels

Arms are equipped with two flanges increasing spatial equipment mounting density and allowing to create various options for equipment mounting.

Hex socket screw mounting standard

All screws used in the design have hex socket heads and a hex wrench is provided with the bracket that can be securely stored in the special openings in the bracket.

Cage nut mounting standard

Both bracket assembling and equipment mounting fasteners are based on cage nuts.

REFERENCE GUIDE

Environmental Classification (MICE)

Telecommunications systems may be installed in different environments ranging from a commercial office building with stable ambient temperature and humidity and not affected by powerful sources of EMI to a factory floor or outside plant with multiple disturbing factors capable to compromise performance of the telecommunications equipment.

MICE classification provides a tool for characterization of various environments addressing four fundamental areas of concern:

- M: mechanical;
- I: ingress;
- C: climatic/chemical;
- E: electromagnetic.

Each MICE class is provided with a numerical index characterizing the severity of the factor (there are three levels of severity), e.g., M₃I₂C₁E₂.

Complete list of parameters related to telecommunications cabling systems can be found in ANSI/TIA-568-C.0 Annex F.

M	I	C	E
- Shock/bump (peak acceleration) - Vibration (displacement amplitude) - Vibration (acceleration amplitude) - Tensile force - Crush - Impact - Bending, flexing and torsion	- Particulate ingress (dia. max) - Immersion	- Ambient temperature - Rate of change of temperature - Humidity - Solar radiation - Liquid pollution (contaminants) - Sodium chloride (salt/sea water) - Oil (dry-air concentration) - Sodium stearate (soap) - Detergent - Conductive materials - Gaseous pollution (contaminants) - Hydrogen sulphide - Sulphur dioxide - Sulphur trioxide - Chlorine wet (>50 % humidity) - Chlorine dry (<50 % humidity) - Hydrogen chloride - Hydrogen fluoride - Ammonia - Oxides of Nitrogen - Ozone	- Electrostatic discharge – Contact - Electrostatic discharge – Air - Radiated RF – AM - Conducted RF - EFT/B (comms) - Surge (transient ground potential difference) – signal, line to earth - Magnetic Field (50/60 Hz) - Magnetic Field (60 Hz–20 kHz)

ADDITIONAL MATERIALS

REFERENCE GUIDE ► IP Code Classification

The IP Code, defined by IEC 60259 standard, previously called "International Protection Code" and sometimes incorrectly "Ingress Protection Code", classifies and rates the degree of protection provided by equipment enclosures (mechanical and electrical) against ingress of solid objects (e.g., dust, wires, tools, etc.) and liquid substances (e.g., water), and accidental operator contact (access to hazardous parts).

IP code consists of "IP" prefix and four symbols, last two of them are optional:

IP	D	D	L	L
----	---	---	---	---

Where information for one of the positions is unavailable or inapplicable it is replaced with "X", e.g., IPX6.

A higher class implies compliance to the requirements of the lower classes.

In certain situations, classes may be achieved independently, as a result the code may be represented by a combined notation, e.g., IP67/IP68.

1 st Position			
	Equipment Protection	Operator Protection	
0	No protection	No protection	
1	Protection against solid object larger than 50 mm (2 in)	Protection against accidental contact with hand	
2	Protection against solid object larger than 12 mm (0.5 in)	Protection against accidental contact with finger	
3	Protection against solid object larger than 2.5 mm (0.1 in)	Protection against accidental contact with tools and wires	
4	Protection against solid object larger than 1 mm (0.05 in)	Protection against accidental contact with fine tools and wires	
5	Protection against dust, limited ingress (no harmful deposits)	Protection against accidental contact with fine wires	
6	Complete protection against dust	Complete protection against contact	
2 nd Position			
0	No protection		
1	Protection against vertically falling drops of water (e.g., condensation)		
2	Protection against vertically falling drops of water up to 15 ° from the vertical		
3	Protection against spraying water at up to 60 ° from the vertical		
4	Protection against splashing water from all directions		
4K*	Protection against splashing water at increased pressure from all directions (limited ingress permitted)		
5	Protection against jets of water from all directions (limited ingress permitted)		
6	Protection against strong jets of water (limited ingress permitted)		
6K*	Protection against strong jets of water at increased pressure (limited ingress permitted)		
7	Protection against the effects of temporary immersion up to 1 m (3 ft)		
8	Protection against the effects of temporary immersion beyond 1 m (3 ft)		
9K*	Protection against cleaning jet of high-pressure water/vapor		
* Automotive equipment			
3 rd Position		4 th Position	
A	Protection against accidental contact with hand	H	High-voltage equipment
B	Protection against accidental contact with finger	M	Device moving during water test
C	Protection against accidental contact with tools	S	Device standing still during water test
D	Protection against accidental contact with wires	W	Weather conditions

REFERENCE GUIDE ► IK Code Classification

IK Code (impact protection) specifies degrees of protection provided by equipment enclosures (mechanical and electrical) against external mechanical impacts in accordance with IEC 62262 and IEC 60068-2-75.

00	Not protected		
01	Protected against 0.14-J impact. Equivalent to impact of 0.25-kg mass dropped from 56 mm above impacted surface.	06	Protected against 1-J impact. Equivalent to impact of 0.25-kg mass dropped from 400 mm above impacted surface.
02	Protected against 0.2-J impact. Equivalent to impact of 0.25-kg mass dropped from 80 mm above impacted surface.	07	Protected against 2-J impact. Equivalent to impact of 0.5-kg mass dropped from 400 mm above impacted surface.
03	Protected against 0.35 J impact. Equivalent to impact of 0.25-kg mass dropped from 140 mm above impacted surface.	08	Protected against 5-J impact. Equivalent to impact of 1.7-kg mass dropped from 300 mm above impacted surface.
04	Protected against 0.5-J impact. Equivalent to impact of 0.25-kg mass dropped from 200 mm above impacted surface.	09	Protected against 10-J impact. Equivalent to impact of 5-kg mass dropped from 200 mm above impacted surface.
05	Protected against 0.7-J impact. Equivalent to impact of 0.25-kg mass dropped from 280 mm above impacted surface.	10	Protected against 20-J impact. Equivalent to impact of 5-kg mass dropped from 400 mm above impacted surface.

REFERENCE GUIDE ► NEMA Enclosure Type Classification

In the United States the main document that defines the levels of enclosure protection, ANSI/NEMA 250-2020, "Enclosures for Electrical Equipment (1000 Volts Maximum)" is published and maintained by National Electrical Manufacturers Association. Tables below provide a digest of definitions of the NEMA protection types.

Type	Non-Hazardous Locations
1	Enclosures intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt).
2	Enclosures intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt). • protection of the equipment inside the enclosure against ingress of water (dripping and light splashing).
3	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • resilience to damage by the external formation of ice on the enclosure.
3R	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • resilience to damage by the external formation of ice on the enclosure.
3S	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • external mechanism(s) remain operable when ice laden.
3X	Enclosures intended for either indoor or outdoor. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • protection against corrosion; • resilience to damage by the external formation of ice on the enclosure.

REFERENCE GUIDE ► NEMA Enclosure Type Classification (continued)

3RX	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • protection against corrosion; • resilience to damage by the external formation of ice on the enclosure.
3SX	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow); • protection against corrosion; • external mechanism(s) remain operable when ice laden.
4	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt and windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow, splashing water, hose-directed water); • resilience to damage by the external formation of ice on the enclosure.
4X	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (windblown dust); • protection of the equipment inside the enclosure against ingress of water (rain, sleet, snow, splashing water, hose-directed water); • protection against corrosion; • resilience to damage by the external formation of ice on the enclosure.
5	Enclosures intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt, settling airborne dust, lint, fibers, flying particles); • protection of the equipment inside the enclosure against ingress of water (dripping and light splashing).
6	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt); • protection of the equipment inside the enclosure against ingress of water (hose-directed water, entry of water during occasional temporary submersion at a limited depth); • resilience to damage by the external formation of ice on the enclosure.
6P	Enclosures intended for either indoor or outdoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt); • protection of the equipment inside the enclosure against ingress of water (hose-directed water, entry of water during prolonged submersion at a limited depth); • protection against corrosion; • resilience to damage by the external formation of ice on the enclosure.

12	Enclosures without knockouts intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt, circulating dust, lint, fibers, flying particles); • protection of the equipment inside the enclosure against ingress of water (dripping and light splashing).
12K	Enclosures with knockouts intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt, circulating dust, lint, fibers, flying particles); • protection of the equipment inside the enclosure against ingress of water (dripping and light splashing).
13	Enclosures intended for indoor use. Must provide the following: • protection to personnel against access to hazardous parts; • protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt, circulating dust, lint, fibers, flying particles); • protection of the equipment inside the enclosure against ingress of water (dripping and light splashing); • protection against spraying, splashing, seepage of oil and non-corrosive coolants.

Pressure Wash (PW) Enclosures.

Constructed for exterior cleaning with high-pressure power washers and tested in accordance with Section 5.15 of NEMA 250.

The PW ancillary rating may be appended only to the following ratings: 3, 3X, 3S, 3SX, 4, 4X, 6, 6P, 12, 12X, 13.

REFERENCE GUIDE ► IEC IP Code vs. NEMA Types Comparison

Type	Hazardous Locations
7	Explosion-proof enclosures demonstrating compliance with the requirements of ANSI/UL 1203 for use in hazardous (classified) locations classified as Class I, Division 1, Groups A, B, C, or D as defined in ANSI/NFPA 70. Designed to contain an internal explosion without causing an external hazard.
9	Dust-ignition-proof enclosures demonstrating compliance with the requirements of ANSI/UL 1203 for use in hazardous (classified) locations classified as Class II, Division 1, Groups E, F, or G as defined in ANSI/NFPA 70. Designed to prevent the ignition of combustible dust.

IEC IP Code vs. NEMA Types Comparison

IP Code (IEC 60259) if compared to NEMA 250 Types does not specify degrees of protection against mechanical damage, explosions, moisture, corrosion, fungus or vermin. NEMA 250 includes requirements for testing environmental conditions such as corrosion, rust, icing, oil, and coolants. For this reason, and because the test procedures and criteria for other characteristics that may be considered equivalent are not identical, the IEC 60259 classes cannot be exactly equated with the NEMA 250 Types. It should be also noted that since the NEMA Type specifications meet or exceed those of IEC 60259, conversion is acceptable in one direction only.

NEMA Type	IEC IP Code															
	0	0	1	1	2	2	3	3	4	4	5	5	6	6	7	7
1	■	■	■	□	■	□	□	□	□	□	□	□	□	□	□	□
2	■	■	■	■	■	■	□	□	□	□	□	□	□	□	□	□
3, 3X, 3S, 3SX	■	■	■	■	■	■	■	□	■	■	■	■	□	□	□	□
3R, 3RX	■	■	■	■	■	■	□	■	□	■	□	□	□	□	□	□
4, 4X	■	■	■	■	■	■	■	■	■	■	■	■	■	■	□	□
5	■	■	■	■	■	■	■	■	■	□	■	□	□	□	□	□

■ ANSI/NEMA 250 Type specifications exceed those of IEC 60259.

□ ANSI/NEMA 250 specifications meet those of IEC 60259.

SAFER SHIPPING with Vetical Cable

Server and Network cabinets are shipped in wooden crates.

Enclosures are shipped in heavy-duty cartons provided with extra protection.

High-quality cardboard boxes for category cables are moisture-resistant and can withstand jumping on them of a 220-pound person. Watch the crush-test video here:

Cables on spools are guarded with a three-ply protective wrapping.

RACEWAY		
045 Series	Surface Raceway Products	USA

What is TAA Compliance?

As outlined by the Trade Agreement Act (1979), US Government and affiliated entities with federal contracts are required to purchase only “end products” made or substantially transformed within the United States or other TAA “Designated Countries.” “End products” are defined by the Act as “those articles, materials and supplies to be acquired for public use.” The TAA requires suppliers to certify that each “end product” meets these requirements.

The Trade Agreement Act (TAA) is intended to foster the growth and maintenance of a fair and open trading system. TAA compliance requires that the U.S. Government (including GSA) acquires only U.S. – made or certain “designated country” end products. This means that all products must be either manufactured or “substantially transformed” in the United States or a TAA compliant country.

In the situation where a product is assembled or comprised of components from several different countries, the guideline applies to the last country that the product is in before imported to the United States. At least 50% of the production must be completed by a TAA compliant country.

HOW TO CHOOSE CORRECT PN

Tables below allow to choose the PN you need using a visual identification of adapter plates and adapters.

- STEP 1** Find the adapter type you need in one of the horizontal rows.
- STEP 2** Choose at the top of the table the column with the type of adapter plate you need.
- STEP 3** At the intersection of the row and column find the PN for the finished product.

Ingress Protection.
See Ingress Protection.

ISP

Inside Plant.
See inside plant.

LC

"Lucent Connector", "Little Connector", or "Local Connector".
A type of optical fiber connector (plug and adapter) defined by IEC 61754-20 (type LC connector family) standard. LC plugs and adapters are based on a snap-in construction with a latch and a 1.25-mm ferrule. LC plugs exist in simplex and duplex variants, adapters – in simplex, duplex, and quadruplex variants.

LGX

Light-Guide Cross-Connect.
A popular mounting format of optical fiber adapter plates. The base of an LGX adapter plate consists of a rectangular metal plate (approximately 130 mm×30 mm [5.12 in×1.18 in]) and two panel fasteners (also known as "plunger locks" or "push pins") located centrosymmetrically at approximately 118-mm (4.65-in) ctc distance from each other. Depending on the shape and number of openings in the LGX adapter plate that match various types of optical fiber adapters, LGX adapter plates may offer hundreds of different configurations.

MM

Multimode.
See multimode.

MPO

"Multi-Fiber Push-On/Pull-Off".
A type of optical fiber array connector (plug and adapter) defined by IEC 61754-7 (type MPO connector family) standard. MPO plugs and adapters are based on a snap-in construction with a push-pull locking mechanism. MPO plugs in order to connect properly have two designs – one with pins and another with matching holes. For fiber arrangement MPO plugs use a matrix of channels with up to two rows and up to sixteen fibers in each row. MPO plugs exist in simplex variant, adapters can be joined in blocks consisting of more than one adapter.

OM1

Optical Multimode Class 1. Type of multimode graded-index optical fiber with core diameter of 50 or 62.5 micrometers and cladding diameter of 125 micrometers. OM1 minimal modal bandwidth is 200 MHz-km at 850 nm and 500 MHz-km at 1300 nm. Currently, OM1 is not recommended by ANSI/TIA-568-3 standard as a transmission medium.

OM2

Optical Multimode Class 2. Type of multimode graded-index optical fiber with core diameter of 50 or 62.5 micrometers and cladding diameter of 125 micrometers. OM2 minimal modal bandwidth is 500 MHz-km at both 850 nm and 1300 nm. Currently, OM2 is not recommended by the ANSI/TIA-568-3 standard as a transmission medium.

OM3

Optical Multimode Class 3. Type of multimode graded-index optical fiber with core diameter of 50 micrometers and cladding diameter of 125 micrometers. OM3 minimal modal bandwidth is 1500 MHz-km at 850 nm and 500 MHz-km at 1300 nm.

OM4

Optical Multimode Class 4. Type of multimode graded-index optical fiber with core diameter of 50 micrometers and cladding diameter of 125 micrometers. OM4 minimal modal bandwidth is 3500 MHz-km at 850 nm and 500 MHz-km at 1300 nm.

OM5

Optical Multimode Class 5. Type of bend-insensitive multimode graded-index optical fiber with core diameter of 50 micrometers and cladding diameter of 125 micrometers. OM5 minimal modal bandwidth is 3500 MHz-km at 850 nm and 500 MHz-km at 1300 nm.

OS1

Optical Singlemode Class 1. Type of single-mode optical fiber with core diameter of 8–10 micrometers and cladding diameter of 125 micrometers. OS1 maximum attenuation is 0.5 dB/km for OSP (loose-tube) cables and 1.0 dB/km for ISP (tight-buffer) cables. Currently, OS1 is not recommended by the ANSI/TIA-568-3 standard as a transmission medium.

OS2

Optical Singlemode Class 2. Type of single-mode optical fiber with core diameter of 8–10 micrometers and cladding diameter of 125 micrometers. OS2 maximum attenuation is 0.4 dB/km for both OSP (loose-tube) and ISP (tight-buffer) cables.

OSP

simplex variant.

QX

Quadruplex or quad.
See quadruplex.

RH

Relative humidity.

RL

Return Loss.
See return loss.

RMU

Rack-mount unit.
See rack-mount unit.

SC

“Subscriber Connector”, “Square Connector”, or “Standard Connector”.
A type of optical fiber connector (plugs and adapters) defined by IEC 61754-4 (type SC connector family) standard. SC plugs and adapters are based on a snap-in construction with a push-pull lock mechanism and a 2.5-mm ferrule. SC plugs and adapters exist in simplex and duplex (also known as 568SC) variants.

SM

Singlemode.
See singlemode.

ST

“Straight Tip” or “Bayonet Fiber Optic Connector (BFOC)”.
A type of optical fiber connector (plugs and adapters) defined by IEC 61754-2 (type BFOC/2.5 connector family (ST) standard. ST plugs and adapters are based on a bulkhead construction with a bayonet joint design and a 2.5-mm ferrule. ST plugs and adaptors mainly exist in a simplex variant.

SX

Simplex.
See simplex.

TPE

Thermoplastic Elastomer. Cable jacket material

belonging to the class of copolymers exhibiting properties typical of both rubbery and plastic materials. TPEs exhibit perfect thermal properties and material integrity when exposed to a wide range of temperatures and non-polar materials such as, for example, benzene, carbon tetrachloride, methane, ethylene, gasoline, toluene.

UPC

Ultra Physical Contact.
See ultra physical contact.

VFL

Visual Fault Locator.
See visual fault locator.

TERMS**“8”-shaped cable**

A self-supporting optical fiber cable consisting of two round cable units bonded together. One of the units contains optical fibers, the other one is used for housing the strength (load-bearing) element, commonly known as “messenger”, made of conductive (stranded steel wire) or non-conductive (aramid yarn, fiberglass epoxy, etc.) materials and used for fixing a length of cable to mounting hardware at both ends. Also known as “figure-8 cable”, “infinity cable”, “shotgun cable”.

adapter

A device designed to mate otherwise incompatible or impossible to connect directly connectors, usually, plugs. Examples: optical fiber adapter, feed-through adapter, hybrid adapter.

adapter plate

A modular unit of connecting hardware consisting of a metal plate with openings for mounting a certain connector type (e.g., optical fiber adapter, coaxial adapter, keystone module, etc.) and mechanical means allowing to fix it within a larger unit (panel, enclosure, box, etc.).

adapter sleeve

A mechanical element in a form of a split hollow shaft made of metal or ceramic, part of an optical fiber adapter, designed to align two optical fiber plugs for the purpose of light transmission between them.

adhesive mounting

A method of affixing one element to another based on adhesive properties of a film, tape, or pad attached to one of the elements. Usually, adhesive mounting is used when there is no other available mechanical means exists.

adhesive pad

An element in a form of a rectangular or round piece of double-sided adhesive tape.
See also adhesive mounting.

administration

The concept describing the requirements toward cabling system documentation, the identification and labeling of its functional elements, and the record-keeping; defined in ISO/IEC 14763-1 and ANSI/TIA-606 standards.

all-dielectric

A construction of an optical fiber cable having no conductive elements among its components.

anchor clamp

A mounting hardware unit (a fitting) designed for fixing ends of optical fiber cables to the elements of support infrastructure (e.g., walls, poles, etc.) by gripping cable jacket in a wedge-like mechanism.

See also suspension clamp, tension clamp.

angled physical contact

A type of an optical fiber plug with the ferrule's end face polished at an angle of 8–10 degrees to the normal plane in order to minimize the back-reflection of the signal at the interface between two plugs.

aramid yarn

A class of synthetic fibers with exceptional thermal and mechanical properties. Aramid yarn is used in tight-buffer optical fiber cables as a strength member.

See also Kevlar.

armored

A type of cable construction with a wrapping of metal in a form of tape, wire, or sleeve. Armored constructions are used for protecting cable from environmental stress such as pressure, bending, and rodents; mostly used in underground installations (direct-buried/trench, conduit, tunnel), because of their weight and presence of conducting elements, usually, are not suitable for aerial installation.

attenuation

The decrease of the signal energy (power). In cabling systems, the attenuation is proportional to the distance the signal travels in the medium and affected by discrete objects such as connectors.

See also insertion loss.

banding

Method of fixing elements of outside plant mounting hardware (brackets, hooks, rings, etc.) to the elements of support infrastructure such as poles by using steel tape.

bend radius
The curvature of a cable bend not causing deterioration of the cable's transmission performance and mechanical properties. The term is also used in the form of "minimum bend radius".

bezel

A mechanical device designed to serve as a mounting holder/adaptor for a connector type that cannot be otherwise mounted in a certain type of connecting hardware. Example: keystone bezel, a frame with a keystone-compatible mounting mechanism allowing to transform a non-keystone connector (e.g., optical fiber adapter) into a keystone module.

blank

Unpopulated, empty unit of connecting hardware designed to accommodate various connectors of the same mounting type. Examples: blank adapter plate, blank keystone-module panel.

boot

A mechanical element made of soft and flexible materials (thermoplastics and rubbers), used as part of an optical fiber plug and designed to provide strain relief for and maintain optimal bend radius of the optical fiber at the point of its entry into the plug.

bore

The central hollow cylindrical portion of the optical plug ferrule bored along the ferrule's axis and having the diameter slightly larger than the fiber cladding, is used to align and fix the fiber in the ferrule.

break-out kit

A kit consisting of a furcation module, which attaches to the optical fiber cable being terminated and serves as a separator for optical fibers, and a number of fiber protection sleeves corresponding to the number of fibers being terminated.

The break-out-kit allows to make a transition from 250- or 900-micron cable fibers to units that are more mechanically stable and convenient in termination.

bridge lance

A mechanical element of connecting hardware (e.g., enclosure, cabinet), usually, made of metal, in a form of a stamped out narrow "bridge" designed to serve as an anchor point for a cable tie.

buffer

The first layer of protective materials applied to an optical fiber over the cladding, typically, having outside diameter of either 250 or 900 micrometers. The buffer is completely removed when preparing fiber for termination.

bulkhead adapter

A type of an optical fiber adapter, usually, made of metal and having cylindrical (barrel) shape. Typical bulkhead adapters: FC, ST.

cable anchor point

A mechanical device, usually, integrated into a unit of connecting hardware (e.g., enclosure, cassette, box) that serves as a mechanism for attaching a means for cable fastening such as cable ties, cable tie warps, etc.

cable entry adapter

A mechanical device, usually, in a form of a plate or bracket designed to provide a cable entry opening in a unit of connecting hardware with a special means of cable protection or connectorization (e.g., bushing, grommet, cable gland, connector). See also cable entry opening.

cable entry opening

An opening (port) in a unit of connecting hardware (e.g., enclosure, cabinet, box, cassette) serving as an entry point for cable(s) being serviced by or terminated in that unit, specifically designated for that purpose and provided by special means of cable protection (e.g., bushing, grommet) and connectorization. See also cable entry adapter.

cable gland

A compression fitting designed for fixing cable at the cable entry point and, additionally, providing a moisture ingress protection. Cable glands are ranged by the size of their mounting opening (metric, NPT, or PG) and the range of cable diameters they can accommodate.

cable management

A system of components and methods allowing organization of distribution cables and cable assemblies in an orderly manner with the goal of efficiently using installation space, facilitating maintenance, providing means of administration, and ensuring cabling transmission performance by complying with the requirements toward cable bend radii, cable tension, and EM separation.

cable management bar

A mechanical device designed for supporting, organizing, and maintaining the optimal bend radii of cables connected to or terminated at a connecting hardware unit (e.g., panel, enclosure, etc.). Cable management bar can be an integrated part of the connecting hardware unit, removable ("snap-in" types), or standalone (e.g., mounted to the same rack, which is used for mounting the associated connecting hardware unit).

cable O.D.

Cable outside diameter, measured using the surface of the cable sheath/jacket.

cable tie wrap

A type of cable-bundling component in a form of soft hook-and-loop straps. Cable tie wraps may have different widths and lengths, anchor slots for tightening, and various colors facilitating identification of cable bundles. Cable tie wraps are considered the most efficient means of cable bundling because of their ability to create compact cable bundles without damaging cable jackets and applying less pressure compared to, for example, plastic cable ties. One of additional advantages of cable tie wraps is their reusability.

cable tie

A type of a cable-bundling component in a form of plastic tie with a lock on one end. Cable ties are one of the least expensive and most durable means for cable bundling, however, their disadvantages include expendability and potential damage they may inflict on cables because of sharp edges and high pressure due to relatively small area.

cassette

A modular unit of connecting hardware consisting of an enclosed case, a number of connectors (e.g., modular twisted-pair jacks, optical fiber adapters, coaxial adapters, etc.), and a cable entry mechanism, and intended to be used as part of a larger unit of connecting hardware such as panel or enclosure. Cassettes provide a convenient method of installation saving time and often are manufactured as pre-terminated units with custom cable lengths.

central strength member

An element placed in the center of optical fiber cable construction, made of conductive (e.g., steel wire or rod) or non-conductive (e.g., fiberglass epoxy rod) materials, and intended to protect optical fibers from stress by providing thermal (cable elongation/contraction due to environmental temperature fluctuations) and mechanical (e.g., tension, bending) stability.

cleaver

An optical fiber tool designed to cleave optical fibers at

angles normal to the fiber axis. Fiber cleaving is used in fusion and mechanical splicing for preparing fiber end surfaces that match each other with the least possible deviations.

concentricity

A measure of linear misalignment of the optical plug ferrule bore axis with the axis of the ferrule body. Concentricity of the ferrule characterizes ferrule's ability to center optical fiber within the ferrule and create efficiently aligned interface with identical ferrules.

connector

A mechanical device designed to connect two ends of transmission media of identical types with the goal of efficient signal transmission through the formed interface. As a general term, connector represents a number of subcategories such as plugs, sockets (also known as jacks), and adapters.

cold-rolled steel

One of the most popular materials used in making such units of connecting hardware as panels, enclosures, cabinets, and also elements of cabling support infrastructure, such as cable organizers.

D flange

One of the two opening form factors used for mounting optical fiber bulkhead adapters and having the cutout shape in a form of a semicircle resembling the letter D. See also DD flange.

dB

decibel, a unit of relative measurement, one tenth of a bel, used to express the ratio of one value to another on a logarithmic scale. In fiber optics the decibel is used for signal energy (power) measurement and calculation. See also dBm.

dBm

decibel-milliwatt, a unit of relative energy (power) measurement, used to express the energy (power) level with reference to one milliwatt on a logarithmic scale. In fiber optics the dBm is used as an additional to dB unit for measurement of absolute energy (power) because of its capability to express both very large and very small values in a short form. See also dB.

DD flange

One of the two opening form factors used for mounting optical fiber bulkhead adapters and having the cutout shape in a form of two semicircles resembling two mirrored letters D. See also D flange.

DIN-rail

A type of equipment mounting element in a form of a surface-mount metal profile resembling a rail. DIN-rail specifications are set by EC/EN 60715 standard. DIN-rail is one of the most popular means for mounting electrical and industrial equipment.

DIN-rail clip

A mounting element designed to provide units of equipment with a DIN-rail mounting capability.

DIN-rail unit

DIN-rail unit, a unit of measurement of DIN-rail horizontal

mounting space equal to 17.5 mm (~0.7 in). Also known as “module” or “M”, and “standard unit” or “SU”.

duplex

In optical fiber cabling, where only simplex signal transmission is possible in a single fiber, DX is used to describe cables with two fibers and connectors allowing to connect two fibers in one unit. Examples: duplex cable, duplex patch cord, duplex plug, duplex adapter. See also SX, QX.

durability

The ability of an optical fiber component (e.g., plug, adapter, mechanical splice, etc.) to withstand a certain number of mating cycles without degradation of its characteristics below a required level.

enclosure

A unit of connecting hardware in a form of a case, box, or other type of enclosed construction designed to house and protect connectors and associated cables, and equipped with all necessary details for the intended purpose.

epoxy plug

A type of optical fiber plug that uses epoxy adhesives for fixing optical fiber in the ferrule for the purpose of termination.

ferrule

The core part in an optical fiber connector that is used for fixing and aligning optical fiber. See also plug and bore.

fiber class

The system of optical fiber transmission performance specifications defined by ISO/IEC 11801 and adopted by ANSI/TIA-568.3-D standard. The system establishes a range of transmission performance levels (classes) of optical fibers with the goal of providing the industry with a comprehensive standardized guidance in order to ensure compatibility between systems, components, and active equipment, and to provide end users with a guaranteed quality of service.

fiber management

A system of components and methods allowing organization of distribution cables and cable assemblies in an orderly manner with the goal to efficiently use installation space, facilitate maintenance, provide means of administration, and ensure cabling transmission performance by complying with the requirements toward cable bend radii, cable tension, and transmission media separation.

filler

An optical fiber cable construction element used to fill hollow spaces in the cable resulted from unoccupied positions otherwise filled with optical fibers or tubes with optical fibers.

flanged adapter

An optical fiber adapter construction implementing two side flanges with mounting openings for screws and used in connecting hardware with heightened requirements toward mechanical stability of its components

(e.g., in industrial environments). See also flangeless adapter.

flangeless adapter

An optical fiber adapter construction implementing a spring mechanism for fixing the adapter in the related unit of connecting hardware without involving threaded joints. See also flangeless adapter.

form factor

A standard (very often a de-facto standard) for mounting certain connectors and units of connecting hardware that sets some limits on their dimensions, shape, and other mechanical parameters with the goal of ensuring their interoperability. Examples: SC form factor, keystone form factor, LGX form factor.

fusion splice

A permanent joint (connection) of two optical fibers produced by fusion splicing. See also fusion splicing.

fusion splicing

A method of joining (connecting) two optical fibers by melting their ends in an electric arc with forming a solid path for light transmission from one fiber to the other. See also fusion splice.

grommet

A mechanical element in a form of a rubber or plastic plug or ring used to cover cable entry openings in units of connecting hardware (e.g., enclosures, boxes, cassettes, etc.) with the goal to protect cable jacket from potential damage by sharp edges of the opening and also to provide additional protection against dust ingress.

insertion loss

A measure of the ability of cabling components and systems to attenuate signals being transmitted through them. In contrast to attenuation, which is a characteristic of a system with active transmitter and receiver connected to it, insertion loss is used to characterize passive components (connectors and cables) and systems (cabling links and channels). See also attenuation.

Ingress Protection

Ingress Protection (Code), also known as International Protection (Code). A system of codes introduced in IEC 60529 standard and adopted by NEMA as an American National Standard (ANSI/IEC 60529) for classifying the degrees of protection provided by the equipment enclosures.

inside plant

Cabling all elements of which are located indoors.

jumper

A widely used informal term applied to optical fiber cable assemblies such as patch cords and equipment cables.

Kevlar

Kevlar is a trademark by DuPont of a material commonly known as para-aramid with exceptional thermal and mechanical properties. Kevlar is used in tight-buffer optical fiber cables as a strength member. See also aramid yarn.

plug polish type

A geometrical profile (shape) of the end face (tip) of an optical fiber plug defining its interface physical properties in terms of light reflection. Back-reflected light is highly undesirable or even intolerable in a number of fiber optic technologies because of its ability to damage the light source it returns to and to interfere with the transmitted signal. The plug polish types are classified by their back-reflecting properties in the form of return loss (RL). There are four plug polish types used:

FLAT or flat contact, RL<-30 dB;

PC or Physical Contact, RL<-35 dB;

UPC or Ultra Physical Contact, RL<-55 dB;

APC or Angled Physical Contact, RL<-65 dB.

See also return loss, angled physical contact, APC, ultra

physical contact, UPC.

plunger lock

See panel fastener.

powder coating

A type of a coating (finish) that is applied by spraying thermoplastic or thermoset polymer compound in a form of dry powder. The powder is adhered to the surface of the part being coated electrostatically and then cured by heating or by ultraviolet light. Powder coating has better mechanical properties (toughness, corrosion resistance) compared to conventional paint. Because of the absence of a liquid component powder coating allows to form thicker layers and provides better and more uniform appearance.

power meter

A device, part of an optical fiber test set, that detects light injected into the fiber under test by the light source connected to the fiber at the other end and measures the energy (power) of the received light. The value of the measured energy (power) is then used by the power meter for calculating and reporting the insertion loss of the fiber under test.

push-pin

See panel fastener.

quadruplex

In optical fiber cabling, where only simplex signal transmission is possible in a single fiber, quadruplex is used to describe connectors allowing to connect four fibers in one unit. Example: QX adapter.

See also SX, DX.

rack

An equipment mounting hardware unit consisting in its basic form of two vertical metal profiles with flanges (usually, front and rear) that are used for equipment mounting. The flanges are provided with a sequence of mounting openings (either tapped holes, or square openings for cage nuts, also known as captive or clip nuts). The rack mounting dimensions and size and spacing of the mounting holes are governed by standard specifications. The most popular rack mounting standard is EIA/ECA-310-E defining specifications for so-called 19-in, 23-in, and 24-in equipment mounting hardware. Equipment units intended to be mounted in standard-compliant racks shall also comply with the same specifications. Other popular constructions based

on the rack design principles are floor-standing cabinets and frames, and wall-mounted brackets, frames, and cabinets.

rack-mount

Method of equipment mounting that uses racks and rack-based constructions.

See also rack.

rack-mount unit

A unit of measurement of the vertical mounting space in racks designed per the EIA/ECA-310-E standard specifications. One rack-mount unit (RMU) is equal to 1.75 in (44.45 mm). Usually, rack-mount units start its count from the top of the rack (from the first mounting hole position). Height of equipment units designed for rack-mounting is also measured in RMU.

See also RMU.

return loss

A measure of the light energy (power) amount reflected back by an optical fiber connector interface and expressed as the ratio between the energy (power) of the back-reflected light and the energy (power) of the emitted light at the interface in dB.

See also RL.

reusability

The capability of a component to be used more than one time. The reusability is, usually, measured in times.

ring

An optical fiber management element in a form of a split ring, usually, made of plastic, and affixed to a related unit of connecting hardware or cable management using adhesive mounting or mechanical anchor mechanism.

rip cord

An element of an optical fiber cable construction in a form of a cord, yarn, or narrow ribbon made of high-tensile material and used for ripping the cable jacket longitudinally, thus eliminating the need in a special tool and reducing the installation time.

scriber

See scribing tool.

scribing tool

An optical fiber tool, usually, in a form of a pen, with the tip made of material with a high coefficient of hardness (e.g., metal carbide, ruby, sapphire, etc.) and used during the process of fiber termination in epoxy plugs for scoring fibers in order to obtain clean flat surface ready for further polishing.

See also cleaver.

simplex

In optical fiber cabling, where only simplex signal transmission is possible in a single fiber, SX is used to describe cables with one fiber and connectors allowing to connect two fibers in one unit. Examples: simplex cable, simplex patch cord, simplex plug, simplex adapter.

See also DX, QX.

singlemode

A type of optical fiber with the core size allowing to exist only one path for light propagation. Advantages of singlemode fibers include low levels of insertion loss, practically absent modal dispersion, and ability to use multiple wavelengths for simultaneous signal transmission (WDM technologies),

making singlemode fibers ultimate transmission medium for long-range communications and systems requiring high data transmission rates, disadvantages – more expensive electronics due to more sophisticated light sources and circuitry compared to multimode fibers.

slack

A spare length of cable or fibers created to fulfill installation requirements or for the purposes of future expansions, reconfigurations, and repairs.

slack storage mechanism

A mechanical device or part of a unit of connecting hardware designed for storing cable or fiber slack, providing protection for cables and fibers, and maintaining required cable/fiber bend radii.

splice

A type of optical fiber connection or connector that connects two fibers by means of fusion or mechanical joining. Fusion splicing does not use a connector, the two fibers are “fused” or “welded” together and the joint is placed in a protection sleeve; in mechanical splicing a special connector is required for aligning and fixing the two fibers.

See also fusion splice, fusion splicing, mechanical splice.

splice cassette

A mechanical device, usually, in a form of a flat shallow container made of plastic or metal, equipped with splice holders, cable/fiber entry openings, anchor points for cable/fiber fastening, fiber management mechanism, and a cover or lid. Splice cassettes are intended to be used as part of a larger unit of connecting hardware and, in case of big fiber counts, can be made stackable. See also splice tray.

splice closure

A unit of optical fiber connecting hardware in a form of a fully enclosed container or “closure”, primarily designed for outside plant installation, and equipped for housing splicing components such as splice trays/cassettes. The main purpose of splice closure is to provide a protected point for connection of two cable lengths and for cable splitting/branching and termination. Splice closures may have various shapes and sizes suitable for a wide range of applications (long-range communications, high-fiber-count systems, drop-cable transition, etc.), environments and installation techniques (e.g., aerial, underground).

splice holder

A mechanical device designed to house and secure splices (fusion splice sleeves or mechanical splice connectors), and made of different materials (mostly plastics and rubbers). Splice holders have different shapes, dimensions, and capacities, and, usually, are not used as standalone devices but rather become parts of larger units of connecting hardware.

splice protection sleeve

A mechanical device in a form of a heat-shrinkable plastic tubing with an imbedded steel strength member designed to house, secure, and protect a fusion splice joint.

splice sleeve

See splice protection sleeve

splice tray

Same as splice cassette. Currently, both terms are used equally and interchangeably and there is no way to specify the difference between the two.

splice-on plug

A type of optical fiber plug that has a factory pre-installed, pre-polished, and cleaved stub of optical fiber in its ferrule. Field termination procedure of a splice-on plug includes fiber preparation (removing certain length of the buffer and coating), cleaving, and insertion into the plug until the fiber touches the end of the stub in the plug. When the contact is reached, a special locking mechanism in the plug is activated and the fiber being terminated becomes locked in place.

spool

A fiber management element in a form of a cylinder or half-cylinder made of plastic, with “wings” preventing fibers from going off the spool. Spools are widely used in large units of connecting hardware (e.g., enclosures, containers) for fiber management and storing fiber slack.

stage

A mechanical part or device in a form of a tray designed for the purposes of cable/fiber management and mounting splicing components. Stage, typically, comprises a pre-installed part or an accessory of a larger unit of connecting hardware and can be either retractable in order to provide convenient access to its contents or fixed.

strength member

An element of an optical fiber cable construction designed to provide certain mechanical properties, such as thermal stability, crush resistance, tensile strength, etc. Strength elements have different forms (yarn, rods, wires, tapes) and use different materials (aramid, nylon, steel, fiberglass epoxy).

surface-mount box

A unit of connecting hardware, usually, small and intended for either work area applications or small building entrance termination/demarcation points (e.g., FTTH terminals), designed for housing one or several connectors, and equipped with cable entry ports, fiber slack mechanism, sometimes small splice holder, and means for mounting on surfaces (walls, backboards, etc.).

suspension clamp

A mounting hardware unit (a fitting) designed for mid-span fixing optical fiber cables to the elements of support infrastructure (e.g., walls, poles, etc.) by gripping cable jacket in a clamp mechanism.

See also anchor clamp, tension clamp.

tensile strength

The force required to pull optical fiber cable to the point where one of its transmission performance or mechanical characteristics degrades below a certain limit.

tension clamp

A mounting hardware unit (a fitting) designed for fixing ends of optical fiber cables to the elements of support infrastructure (e.g., walls, poles, etc.) by gripping cable jacket in a wedge-like mechanism. Tension clamps differ from anchor clamps by their

smaller size and lower retention force.
See also anchor clamp, suspension clamp.

termination

A method, process, and procedure of physical termination of an optical fiber into a connector (connectorization) with the purpose of allowing it to be connected to either active equipment or to other portions of cabling system, thus forming a transmission path for a signal.

termination yield

A ratio, usually, expressed in percent, between successfully terminated components and those that failed.

"terminator"

A 1984 science fiction action film released by Orion Pictures, co-written and directed by James Cameron and starring Arnold Schwarzenegger.

tight buffer

Optical fiber cable construction whereby each glass fiber is tightly buffered by fiber cable a protective thermoplastic coating to a diameter of 900 microns. Increased buffering provides ease of handling and connectorization.

See also loose tube.

tracer

A color-coded identification stripes (continuous or intermittent) applied to optical fibers or fiber groups (tubed or bundled) within optical fiber cables and used for fiber group identification per ANSI/TIA-598 color-coding scheme.

tube

An optical fiber cable element in a form of a color-coded plastic tube, designed for grouping fibers in multifiber cables for enhanced mechanical protection of fibers, for facilitating installation and termination, and for identification purposes.

unibody

A type of construction of a duplex optical fiber plug, which cannot be split into simplex components (a one-piece construction).

ultra physical contact

A type of an optical fiber plug with the ferrule's end face machine-polished maintaining a certain curvature, which ensures two plugs connect at the fiber core area.

visual fault locator

A visual light emitting device used in optical fiber cabling during certain types of termination for termination point illumination, for fiber tracing/identification, and for troubleshooting. Visual fault locator, usually, emits visible red light, which can be detected, depending on the output power, at a distance up to several kilometers/miles.

water-blocking material

Materials in different forms (gels, "dry" fillers) used to fill internal space of optical fiber cables (filled cables) to prevent moisture ingress.

@VERTICALCABLE YOUR QUALITY IS OUT OF THIS WORLD! - @PNW _ LOW _ VOLT

MUCH LOVE TO @VERTICALCABLE FOR MAKING CAT6 THAT PULLS SO SMOOTH AND IS EASY TO WORK WITH - @ALLGREENLIGHTSLLC

ciscobusinesssecurity

WIRING UP THE NEW HOUSE ONLY USING THE BEST - @VERTICALCABLE

- @THESTORKBYTE

LET'S TALK TIME SAVING TOOLS! JUST GOT THE @VERTICALCABLE I-PUNCH KEYSTONE TOOL YESTERDAY - AND LET ME SAY, THIS THING IS

🔥🔥🔥!! SAVES OUR TECHS SO MUCH TIME! BEATS HAVING TO PUNCH EACH WIRE ONCE (OR TWICE!) - AND COMPLETES THE TASK IN ONE QUICK CRIMP. - @BLUERHYTHMAV
